The Alabang Chapter recently held its 9th Board of Directors Meeting over Zoom Conference, January 15, 2022. The Meeting is presided over by VP-Prog Ar. Kiko Malabed. Few key points were discussed:

- December Activity - December GMM: "Let Your Hair Down - UAP Alabang Christmas Party!" - CP Acknowledge the team for a successful GMM
- Follow thru report by CP Ar. Rachele Malinao over Messenger - December CSR - Call for Donations! For the victims of typhoon Odette - Donation gathered by the UAP Alabang Chapter have been forwarded to UAP Bohol Chapter with the Assistance of UAP Bohol CP Ar. Jesus Sab. Donation Amount = P15,000 thru wireless bank transfer
- BOD also brought up Feedback on previous GMM transpired - for better understanding of the program proper and how to improve succeeding GMM's. Virtual Quick Practice would be held an hour or two before the event, this also to accommodate system test with guests speakers.
- For January Technical GMM Preparations (Poster, Invitations RSVP Links, Speaker/Lecturer/ PRC Coordination etc.) - as usual will be handled by the Secretariat, Operations, Programs Team. Speaker/Lecturer from COOHOM - online rendering app for designers; also ARCHITECTHOLOGIES INC. + GRAPHISOFT - BIM - introduction and use of BIM workflow.

The Alabang Chapter recently held its Virtual GMM titled: ARCHITEKTOK: “Technologies for Architecture”, January 22, 2022. The event is well supported by our industry partner Davies Paint, COOHOM, Archtechnologies Inc + Graphisoft. The event was a very engaging event, and every participant took time off in their busy schedules to attend the event. Total Attendees 52, inclusive of Members, Guests, and Sponsors. The event have been awarded with 1.00 CPD point under ACCREDITATION NUMBER: ARC-2009-001-317

On the First part, Guest speaker Ms Cecelia Comia of COOHOM (an Industrial Designer) shared on what the pandemic has brought us and what we could learn to adapt to the challenges of practices in remote situations. She started with the design thinking principles; Desirability; Viability; and Feasibility that leads to Innovation. Technologies such as cloud based technology have addressed or helped the way design practices throughout the world, and have solutions to the physical gap or remote situations we are all experiencing. COOHOM is one of technologies we can tap into, and have the ability/incorporate its platform to technology based workflow commonly used in our Country Architecture Practices. The technology is primarily a 3D modelling, Rendering, and Walk-through services but have adapted to even more avenue to help SME practices, with added features in their selection that helps not just the designers in their visualization and presentations, but helps on the Brand/Product marketing and advertising thru incorporated Analytics, and helps also the retailers to see the products in virtual setting in setting up as a web page. COOHOM offers more and has catered more avenues to address remote situations. If we only embrace what available technologies out there and utilize the advantages it would certainly help the gap and

remoteness of everyone then as designers of thai country would help shape the world. This kind of technology is part of Global practices that helps our country professionals.

On the second part, guest speaker Ar. Dennis Mayo shares his portfolio in diversified experience on providing BIM services in the industry. He shared on how the BIM technology can be utilized. He also pointed out that BIM services are a great tool for clash detection and avoidance to help designers and consultants, a great tool for construction sequence to help builders and CM. BIM is a good platform to effectively communicate visually to all parties involved on a project. A good tool for project Post Documentation for Realty and Property Industries. Overall it is a rising service here in our country, and it's a great help/tool for Small and Medium enterprises to make a more competitive service.

After the UAP Alabang awarded their Appreciation to the Guests Speakers and Sponsors, the chapter announced UAP NATCON 47 this coming April 2022, and by the next GMM February 2022 there will be Chapter Officer Elections
