CPD Seminar-Workshop on Architectural Heritage Conservation for Young Architects, Successfully Conducted

UAP Committee on Young Architects (UAP-CYA) successfully conducted the first leg of its Continuing Professional Development Seminar-Workshop on Architectural Heritage Conservation with the theme “Heritage 101 for Young Architects “ last October 12-14, 2017 at Centennial Resort Hotel and Convention Center in Jaro, Iloilo City.

This 3-day event was in partnership with the UAP Committee on Architectural Heritage Conservation (UAP-CAHC) and UAP Iloilo Chapter as the host chapter.

With the increasing demand for knowledgeable and competent Cultural Heritage Conservationists in the field of Architecture due to the growing need to preserve and document existing examples of Philippine Heritage Architecture, Ar. Patrick N. Rodriguez, chair of UAP-CYA and Ar. Jayson Portem, chair of UAP-CAHC decided to collaborate in creating a seminar-workshop that will feature solely on architectural heritage conservation and to be offered in several legs and in various locations.

Heritage 101 for Young Architects featured nine (9) of the notable and recognized professionals in the field of heritage conservation and was attended by a total of 199 participants from 38 different UAP chapters.

Day 1 (October 12) was allotted for four seminars which was divided into two sessions. The morning session was highlighted by the lectures of Ar. Mary Rajelyn Busmente who discussed the “Basics in Architectural Conservation” which anchored on History of Architecture (mostly Renaissance period) and delved into the development of identities of each nation in terms of their psychology on art and architecture; and of Ar. Michael Manalo who shared his expertise through his talk on “Built Heritage Conservation as a Profession: Key Concepts in Understanding the Practice which explored the possible values connected to the conservation of the built heritage: from the abstract and intangible, to the obviously visible.

In the afternoon session, two more topics were introduced to the participants which include “Identity and Spirit of Place: How Do We See Them in Architecture?” by Ar. Jeremy Jade Balagat who explained some of the concept essential in understanding identity in architecture and will cite some examples in how it affects the spirit of place, and “Built Heritage-Mga Akala sa Heritage at Marami Pang Iba: Misconceptions on Heritage” which was discussed by Associate Professor Eric Zerrudo. He illustrated the development of built heritage definition and the characters of conservation that evolved. His lecture opened the architects to a varied menu of conservation principles and approaches.

An open forum was conducted after every two topics in which majority of the concerns raised include the respective heritage conservation issues of the delegates.

On Day 2 (October 13) morning activity, the participants were given the opportunity to visit and experience four of the notable heritage sites of Iloilo City which include Molo Mansion which is a significant and historic house in Molo and was now converted into a heritage museum; Camiña Balay nga Bato, an 1865 Avanceña house which was preserved for almost a century and a half now; Mejica Museum which showcase huge printing equipment of the early 20th century and a literary museum; and Molo Church, a famous Spanish-colonial church which is known for its prominent red spires that crown its tall bell towers as the “feminist” church because of the all-women ensemble of saints represented in 16 statues perched on the aisle pillars.

The group was divided and transported via four different buses in which a carousel type of tour was implemented. A city tour was also conducted upon the trip from one heritage site to another to show the richness of the city in terms of culture and heritage. During the visit at Camiña Balay nga Bato, the participants were treated with the famous “tsokolate de batirol” while exploring the well-preserved ancestral house.

Upon completion of the heritage tour, a lone seminar on Day 2 followed. Ar. Jayson Portem, Chairman of the UAP Specialty Council on Architectural Heritage Conservation and executive council member

of the National Committee on Monuments and Sites of the NCCA, talked about “Cultural Route and Architecture”. The objective of this topic is to deliver the importance of identifying routes and access that will be used for identifying the spirit of the place or the culture that is associated with the community. Ar. Portem also discussed the guides that will determine the elements that comprise the cultural route.

After his lecture, a workshop which was related to the heritage tour conducted earlier. The speaker tasked the delegates to apply the knowledge and information gained during the tour and were asked to identify the spirit of place and determine if the routes that they passed through during the tour can be considered as cultural routes.

The expected outcome of the workshop was to enable the participants to identify cultural elements of a cultural route for the purpose of built heritage inventory and increase the level of its significance.

Same set-up with Day 1, Day 3 (October 14) featured another four seminar topics. In the morning session, Ar. Cesar Markel Luna lectured on “Architectural Heritage Conservation: Learning From The Past” and focused on

Architectural Heritage Conservation as a discipline, which involves standard procedures and entails the meticulous process of decision-making to determine which among various conservation approaches should be applied. This was followed by the talk on “Pasingtábî king Aldo ampóng Ángin” (Homage to the Sun and the Wind): A Look into the Kapampáangan Vernacular Architecture” by Ar. Michaela Rosette M. Santos. The lecture delved in exploring the distinct domestic typologies in the province of Pampánga to illustrate the identity of *Kapampáangan* vernacular architecture and the existence of a localized building model that could enrich the resources of the contemporary built environment practices that gives respect to mother nature

The final two topics were carried in the afternoon which include "Revisiting Traditional Pre-1565 Architectural Form in the Philippines and its Influence to Spanish Colonial Architecture" by Ar. Rino D.A. Fernandez which focused on both on these various traditional architectural forms and its possible influences to the emerging Spanish Colonial Architecture in the country; and "Bridging The Gap Between Conservation Theory and Practice Through Skills Training via The Learning-by-Doing Approach" by Ar. Jeffrey Cobilla, highlighted by the presentation of the training and actual projects performed by his institution.

There were two sets of open forum, one in the morning session and the other one was in the afternoon session, in which concerns and clarifications of the participants were answered by the concerned speakers.

Before the end of this 3-day seminar-workshop, UAP National President Guillermo Hisancha delivered a short speech and expressed his gratitude to both the organizers and participants for the successful holding of this event.

Heritage 101 for Young Architects was a PRC accredited seminar-workshop with accreditation number 2009-001-138 with 17 Credit Units under the Category of Sustainability.

PINTIG: A Conference on Specializations of Architecture, Successfully Conducted

The United Architects of the Philippines Committee on Young Architects (UAP-CYA) successfully conducted its Continuing Professional Development Seminar-Workshop entitled “PINTIG: A Conference on the Specializations of Architecture” last December 8-9, 2017 at The Heritage, #5 Catanduanes Street, Quezon City

This 2-day event was in partnership with the UAP Quezon City Chapter as the host chapter.

PINTIG: A Conference on the Specializations of Architecture featured nine (9) of the notable and recognized professionals in various field of architecture and was attended by a total of 118 participants from 32 different UAP chapters.

Day 1 (December 8) was allotted for four seminars which was divided into two sessions. The morning session was highlighted by the lectures of **Ar. Armando Eugene de Guzman III** who discussed the “**Hospitality Design**” which anchored on the basics on design, operations and guidelines on the hotel design with sharing of personal accounts and experiences; and of **Dr. Eden Sorupia** who shared her expertise through her talk on “**Transport, Communities and Architecture**” which focused on the relationship between land use/building occupancy and the movement of people and vehicles. Through her talk, she emphasized that to ensure that a sustainable relationship exists, communities must be integrated with a legible transport network that is not just about cars.

In the afternoon session, two more topics were introduced to the participants which include “**People-Oriented Transport Systems & Open Space Network Planning: Focus on Smart Growth and Transit-Oriented Development**” by **Dr. Mark Anthony Morales** who discussed the role of architects towards realizing a smarter way of achieving urban development; particularly in the context of addressing urban sprawl through the efficient usage of open spaces and built structures via transit-oriented development strategies. The presentation also provided a brief review of related concepts and methodologies to achieve smart growth through transit oriented development and open space network planning. **Ar. Richard Garcia** was the fourth speaker of the day with the topic “**Factors that Determine the Success of Commercial Development in the City and Provinces**”.

On his talk, he focused on the following points of discussion: 1) What causes commercial developments to succeed and fail?; 2) What are the essential design elements and strategies needed for successful commercial development? And 3) Identify the correct mix (percentage) of food, retail, cinema types, recreation, and leisure spaces for city and provincial malls.

An open forum was conducted after every two topics in which the delegates actively participated.

Day 2 (December 9) featured another five seminar topics. In the morning session, **Mr. Carmelito Tatlonghari** lectured on “**Lighting Efficiency**” and he reiterated that efficient lighting in building reduces environmental impact, benefits the bottom line of building owners and promotes better health for building occupants. Mr. Tatlonghari also presented basic to current advance technologies for efficient lighting. It was then followed by the topic of “**Building Energy Modeling (BEM)**” presented by **Engr. Robert Gomez**. He highlighted that the building energy efficient is a critical part in most of the green building certifying bodies. Due to the complex algorithm required Building Energy Modeling (BEM) is continuously being developed or simplified to help design decision making during the early stage of construction Design Development. He also discussed that BEM is a versatile, multipurpose tool that is used in new building and retrofit design, code compliance, green certification, qualification for tax credits and utility incentives, and real-time building control.

An open forum was held after the completion of the two topics.

The final three topics were carried in the afternoon which include **“Architectural Acoustics”** by **Ar. Alex Ray Evangelista** wherein he focused on the main component of Architectural Acoustics, the Sound, its properties and characteristics inside enclosed spaces. He also stressed that regardless of specific issues or problems, the bottom line is Architectural Acoustics plays a significant role in programming and should always be considered at the onset of planning, rather than later when the damage has already been done. An open forum was conducted after the lecture. It was then followed by the talk of UAP Likha Awardee, **Ar. Edilberto Florentino**, with the topic on **“Challenging**

Architects to Come Up with Creative Building Technologies”. Ar. Florentino presented some of his innovative building technology materials and methodology which he widely used on his projects. The main objectives of his talk include: 1) To equip and inspire young architects in producing creative design and technology beyond the ordinary and the existing and 2) To encourage architects to contribute to the need of providing creative technical solutions to national disasters buffeting the country in ways that are doable and affordable to most.

The final lecture of the day was delivered by **Ar. EnP. Carlo Fundador Marudo** through his **“Understanding Construction Safety: The Requirements, Challenges and the Unseen”** in which he focused on the need for awareness and understating the field of Construction Safety, its requirements, challenges and advantages becomes even more than a necessity. He also presented the legal basis and implementing policies of the Construction Safety, its local governing agency requirements, and the promise that lies beneath its implementation. A workshop related to this topic was conducted by Ar. Marudo which was actively participated by the delegates.

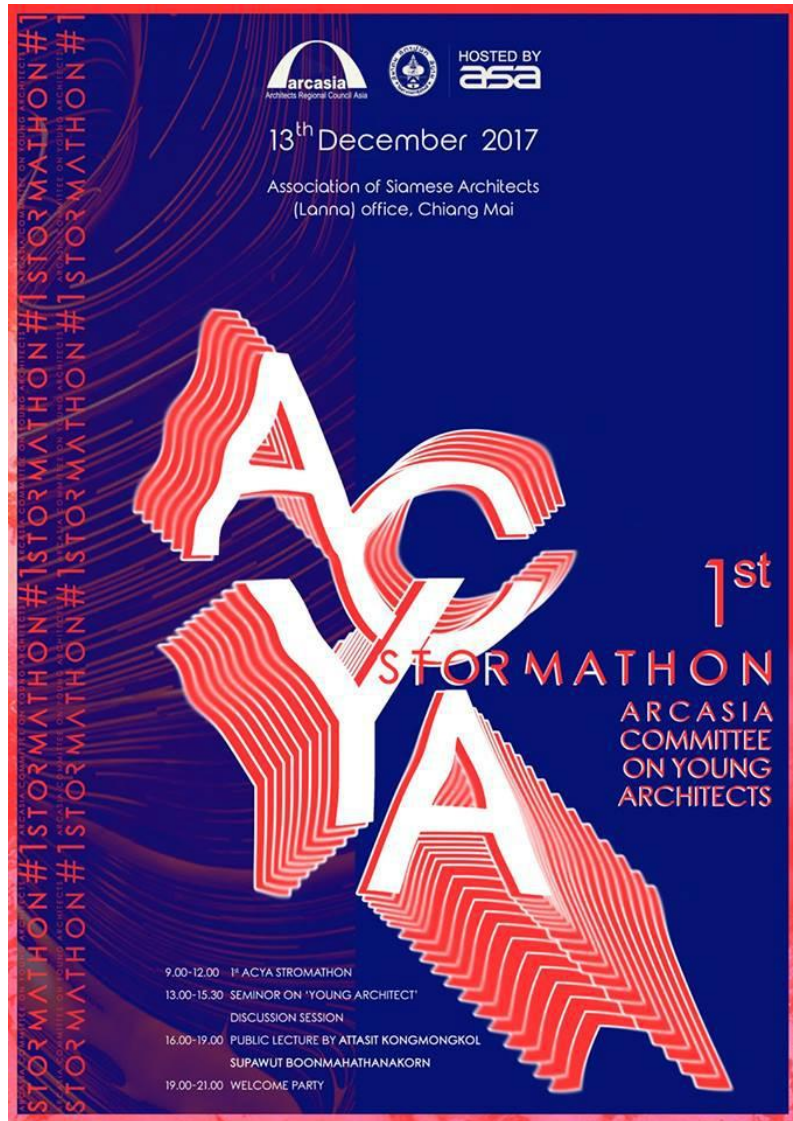

PINTIG: A Conference on the Specializations of Architecture was a PRC accredited seminar-workshop with accreditation number 2009-001-339 with 13.5 Credit Units under the Categories of Design, Practice, Building Science and Sustainability.

ARCASIA EVENT

SUMMARY REPORT

AR. PATRICK N. RODRIGUEZ

CHAIR, COMMITTEE ON YOUNG ARCHITECTS
UNITED ARCHITECTS OF THE PHILIPPINES (UAP)

1ST ARCASIA Young Architects Stormathon, Chiang Mai, Thailand, December 2017

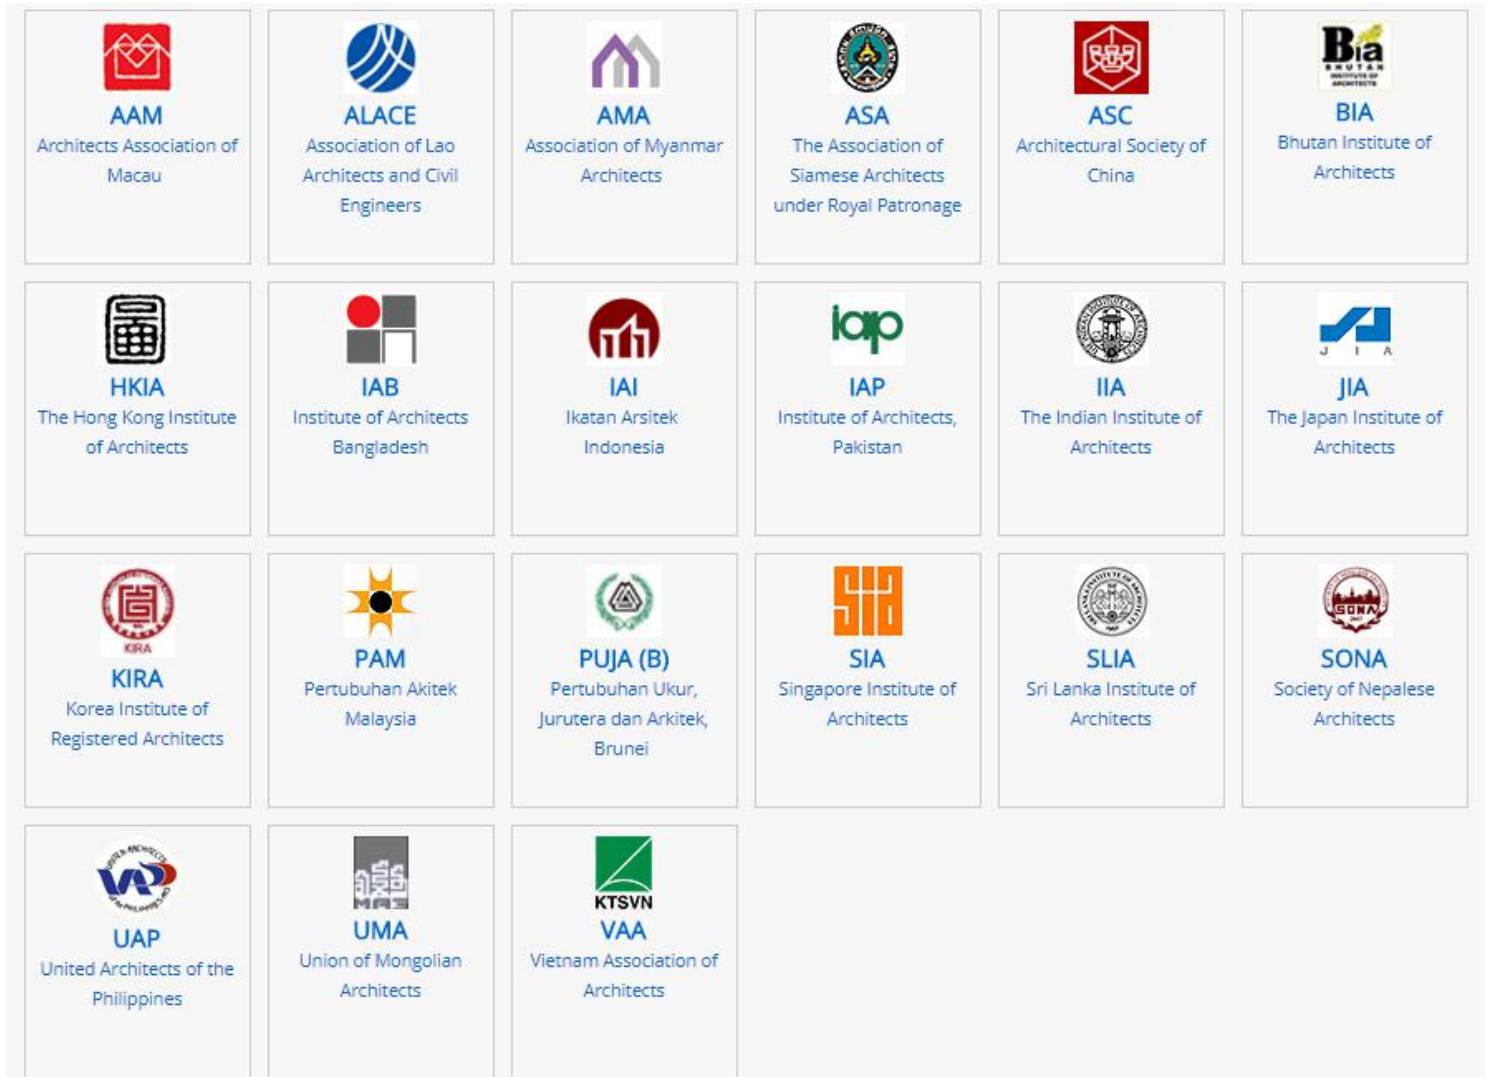

ARCHITECTS REGIONAL COUNCIL OF ASIA (ARCASIA): BACKGROUND

The Council of the ARCASIA consists of all the Presidents of the National Institutes.

The organization itself serves as an extension for each member institutes' regional programme and relations. Annual meetings are held in different member institute countries, to deliberate and to give collective directions and representation to matters that affect the architectural profession in the Asian region.

Objectives

- To unite National Institutes of Architects on a democratic basis throughout the Asian region, to foster friendly, intellectual, artistic, educational and scientific ties;
- To foster and maintain professional contacts, mutual co-operation and assistance among member institutes;
- To represent architects of the member institutes at national and international levels;
- To promote the recognition of the architect's role in society;
- To promote the development and education of architects and the architectural profession in their service to society;
- To promote research and technical advancement in the field of the built environment.

ARCASIA COMMITTEE ON YOUNG ARCHITECTS (ACYA): FORMATION

- ❑ Established in June 2014
- ❑ 1st Chairman: Ar. Fawad Suhail Abbasi of IAP
- ❑ Members of ACYA: 40 years old and below
- ❑ 1st ACYA Meeting was held in Ayutthaya, Thailand in November 2015
- ❑ ACYA Objectives:
 - To promote ARCASIA leadership development for young Architects.
 - To facilitate and allow for members who are in process of establishing Young Architects framework in their respective countries to leverage from the experience of those who have an established process.
 - To provide a platform and opportunities for young architects from the member institutes to network, exchange their ideas and aspirations and to develop programs that encourage participation of young architects.
 - The Committee shall be responsible to the ARCASIA Council for the affairs of the ACYA

President
United Architects of the Philippines
UAP National Headquarters Building,
53 Scout Rallos Street, Diliman,
Quezon City 1103, THE PHILIPPINES

Subject: Invitation to the 1st ARCASIA Young Architects Stormathon

Dear President Guillermo H. Hisancha,

The Architects Regional Council Asia (ARCASIA) together with the Association of Siamese Architects under Royal Patronage (ASA) cordially invite you or ACYA representative to attend the 1st ARCASIA Young Architects Stormathon to be held on the 13th December 2017 at the office of ASA Northern Chapter (ASALanna) in Chiang Mai, Thailand.

We are pleased to welcome you to attend the following events included on the Stormathon Program

- The 1st ARCASIA Young Architects Stormathon on Wednesday, 13th December 2017 at 09.30 – 12.00 hrs.
- Seminar on "Young Architect roles in ARCASIA" on Wednesday, 13th December 2017 at 13.30 – 15.30 hrs.
- Public Lecture by Representative from ASALanna Young Architects on Wednesday, 13th December at 16.00 – 17.30 hrs.
- Welcome Dinner on Wednesday, 13th December 2017 at 19.00 – 21.00 hrs.
- Architecture Tour in Chiang Mai Thursday, 14th December 2017 at 10.00-12.00 hrs.
- Attend the Opening of ASALanna 2017 Annual Architecture Expo in Lamphun on Thursday, 14th December 2017 at 15.00-16.30 hrs.
- ASA night dinner party on Thursday, 14th December 2017 at 19.00-21.00 hrs.
- Architecture Tour in Lamphun on Friday, 15th December 2017 at 10.00-12.00 hrs.

As our honored guest, you will be provided with transportation from and to Chiang Mai International Airport and hotel accommodations for one official representative per one institute up to three nights during the 12th – 14th December 2017. Please be informed that you are responsible for all incidentals, and credit card will be required upon check-in. Kindly confirm your attendance by returning the attached Registration Form by **28th November 2017**.

Please obtain your visa from a Royal Thai Embassy/Consulate in your country prior traveling to Thailand.

We are looking forward to your participation in the 1st ARCASIA Young Architects Stormathon.

Yours sincerely,

Ajaphol Dusitnanond
President

1ST ACYA STORMATHON

DAY 1: COUNTRY REPORT & ROUNDTABLE DISCUSSION

Agenda:

Morning Session

0900-0915: Opening Remarks by ACYA Chairman

0915-0930: OB Meeting Update

0930-1000: Meeting Minutes from Jaipur Conference

1000-1200: Country report – 5 minutes each country

1200-1400: Lunch

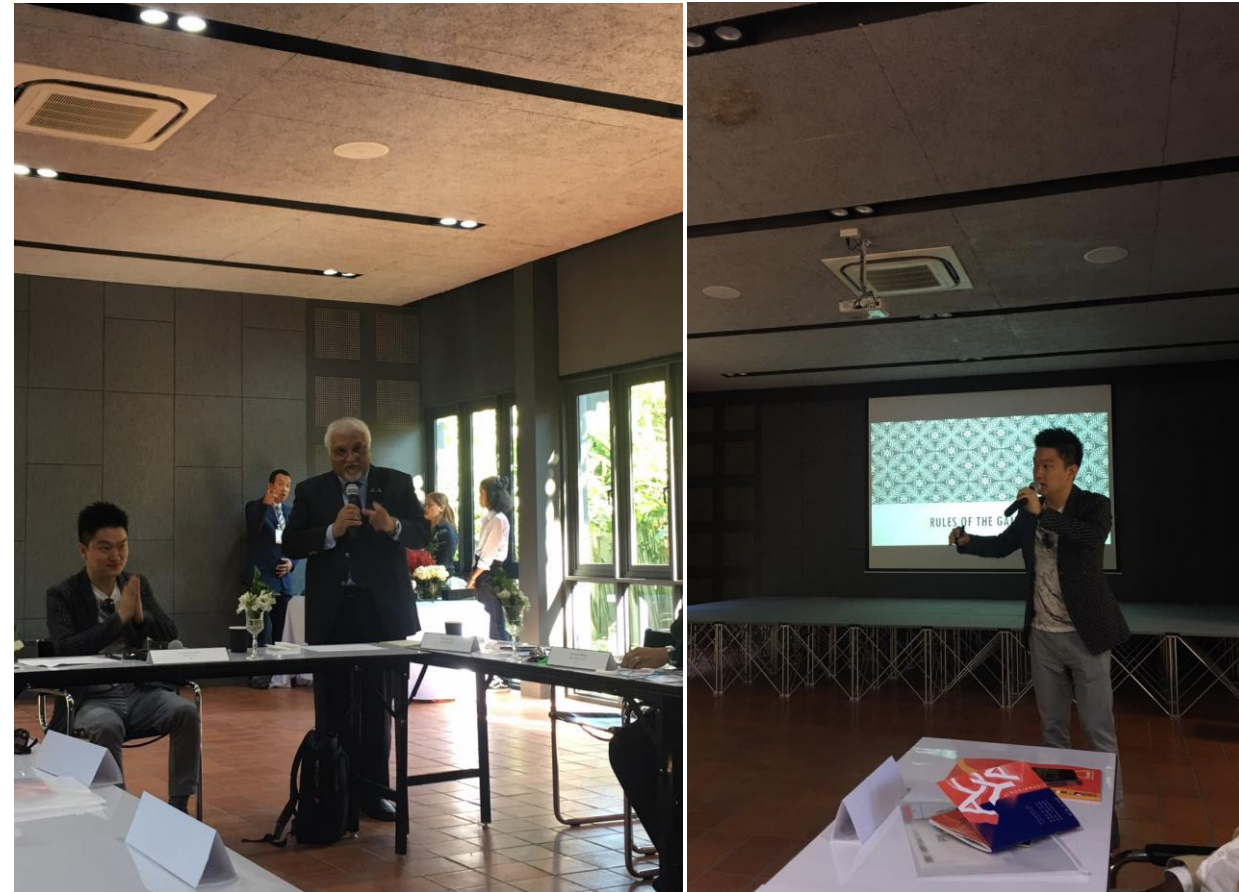

After Noon Session

1400-1430: Opening Remarks by ACYA Chairman

1430-1630: Discussion of the following:

- Reflection of ACYA 2015-2017
- Understanding ARCASIA Constitution and ACYA Objectives
- ACYA Targets and Vision
- ACYA Direction and Strategic Plans
- Calendar of Activities 2018-2020
- ACYA Organization Chart
- Delegation of Works

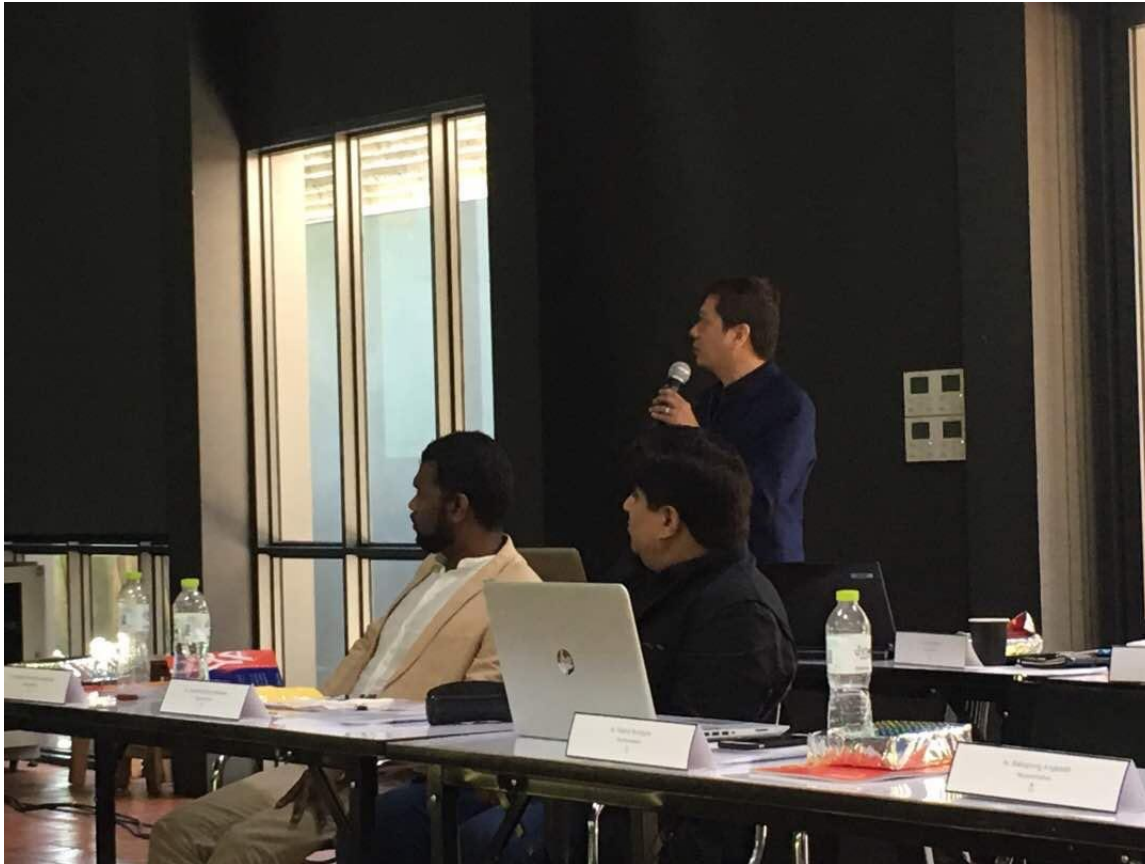

1630-1730: Presentation of ASA Young Architects

ARCASIA President Ar. Jahangir Khan and ACYA Chair Ar. Szuë Hann Tan delivering their respective opening remarks during the morning session of the Stormathon.

DAY 1: PRESENTATION OF THE ACYA STRATEGIC PLANNING & PROGRAMS

Highlights of the presentation by ACYA Chair Ar. Szue Hann Tan and Deputy Chair Ahmad Ridha :

ACYA 2017-2018 PROPOSED ACTIVITIES

| 3.3 | Propose 2017/2018 Youth Programs | Action |
|-----|---|--|
| | To propose more youth activities as ACYA <ul style="list-style-type: none">■ Encourage young architects within ARCASIA region to connect■ ACYA gatherings during 2017 and 2018 can be<ul style="list-style-type: none"><u>2017</u><ul style="list-style-type: none">- Sept :UIA Seoul, Korea(Sept/Nov: <u>Arcasia Council meeting</u>)- Nov/Dec: <u>Stormathon Chiangmai</u>, Thailand<u>2018</u><ul style="list-style-type: none">- Mar/April: possibly one of the OB meetings- Sept: ACA18 Tokyo | ARCASIA OB KIRA ASA JIA |
| | To promote cross border networking <ul style="list-style-type: none">■ Collaboration between young Architects through exchange of speakers, study trips and best practice sharing. | Ar Tan |
| | Young Architects Forum and AAA young architects awards Young Architects Forum and AAA young architects awards were proposed. The forum can be held every two to four years on similar lines as ARCASIA Forum and Congress along with Young Architect Awards at AAA (The ARCASIA Awards for Architecture). Ar. Tan to propose at ARCASIA OB meeting | Ar Tan |
| | ACA18 Program ACA18 ACYA program shall be discussed. Ar.Tan to follow up | Ar Tan |

HOW CAN WE MAKE OUR PROGRAMS MEANINGFUL?

Program must be inclusive and doable with other countries and consider various factor such as participation, time, cost and etc

ACYA SWOT

STRENGTH

1. We are 21 Nation with different exposure and expertise
2. Good support from ARCASIA OB

WEAKNESS

1. Not all country have youth representation in ACYA
2. Not all country have youth committee
3. Different country youth issues

OPPORTUNITY

1. To collaborate physically or virtually
2. Establish KPI – End product

THREAT

1. Committee member Time & Cost
2. Funding and sponsor
3. Youth different back ground and experience

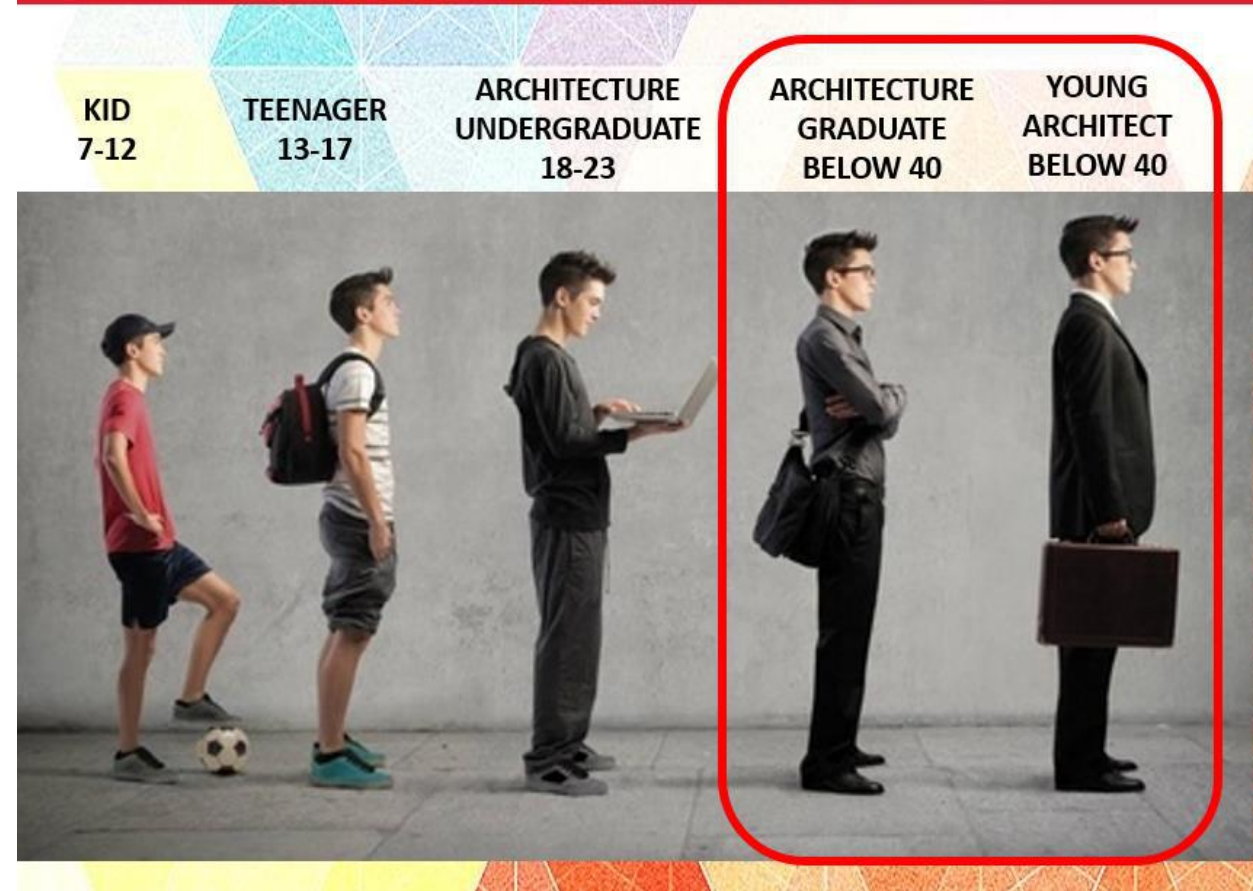

1ST ACYA STORMATHON

DAY 1: PRESENTATION OF THE ACYA STRATEGIC PLANNING & PROGRAMS

QUESTION TO ASK-WHAT IS ACYA VISION?

- **WHAT IS OUR VISION AND ASPIRATION FOR THE YOUNG ARCHITECT OF ASIA?**
- HOW DO WE PROMOTE ARCASIA & ACYA TO ASIAN YOUTH?
- HOW CAN WE IMPROVE LEADERSHIP?
- HOW DO WE WORK TOGETHER AND COLLOBORATE ?
- DO WE NEED TO MEET TO COLLABORATE?
- HOW CAN WE EXCHANGE ?
- WHAT DO WE EXCHANGE?
- WHAT IS OUR SHORT AND LONG TERM GOAL?
- WHAT IS OUR KPI?
- DO WE HAVE A PRODUCT TO SHOW?

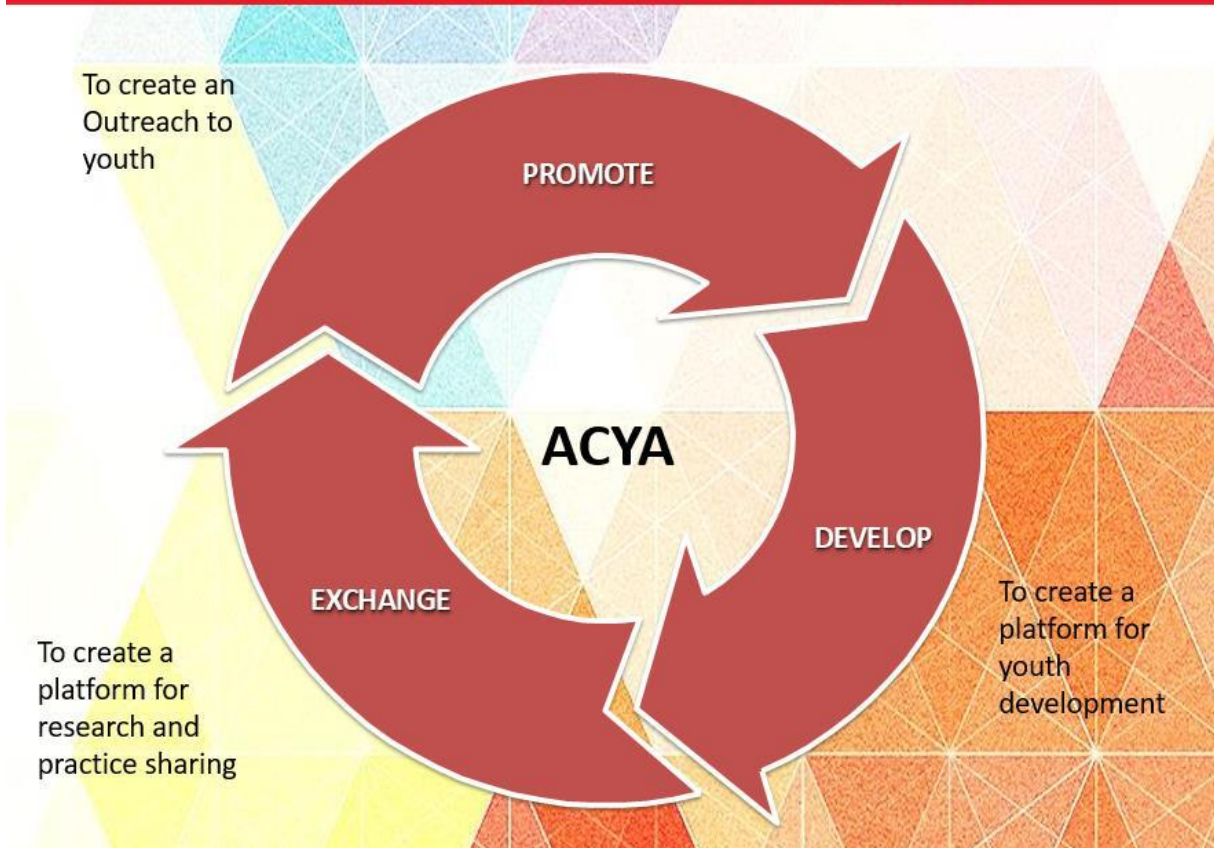

WHO IS OUR TARGET?

1ST ACYA STORMATHON

DAY 1: PRESENTATION OF THE ACYA STRATEGIC PLANNING & PROGRAMS

PROPOSE ACYA STRATEGIC PLAN

PROPOSE ACYA STRATEGIC PLAN

PROMOTE

Awareness

- To promote AisAsia & ACYA down to the grass root of each ArcAsia Country youth

Events

- To promote youth events between countries.

Participation

- To encourage participation of youth at Arcasia events, competition and programs.

DEVELOP

Leadership

- To create new leaders and prepare ACYA member to provide continuity to other Arcasia committee

Issues and solution

- To discuss issues of youth and coming up with potential solutions.

Recognition

- To identify talent from undergraduate, graduate and young Architect below 40

EXCHANGE

Practice & Design

- To create platform for sharing of design and practice knowledge between youth.
- To share youth business best practice around Asia.
- To encourage collaboration between youth firm

Education

- To promote cross Architecture education for youth in Asia
