ABOUT THE LOGO

“NUCLEUS” is defined as the central and most important part of an object, movement, or group, forming the basis for its activity and growth. Inspired of this concept, UAP takes this role as the “nucleus” in relation to the architect and the architectural profession in the borderless environment called “ASEAN”.

UAP, now, more than ever, equips the architects with the necessary skills and competencies, and concurrently empowers the profession through the provision of a stable foundation, for both to confidently move towards the fast-approaching and challenging greater global collaboration.

The ten (10) petal-like images emanating from the nucleus represent the 10 ASEAN member-countries with UAP at the center, working in alliance with the other professional groups of the other member-countries. They likewise represent the architects, coming out strong from the “nucleus”.

NATCON 41

EMPOWERING ARCHITECTS TOWARDS ASEAN INTEGRATION

APRIL 16-18, 2015 • SMX CONVENTION CENTER, METRO MANILA

Finally, the green color symbolizes freshness, action, and healthy growth. The UAP and its strong membership come prepared to embrace the upcoming ASEAN integration, with the determination to ultimately make a mark given this development, and with the commitment to continuously better itself in anticipation of more challenges in the future.

BENIGNO S. AQUINO III
Republic of the Philippines
President

My warmest greetings to the United Architects of the Philippines as you hold your 41st Annual National Convention.

Architects bring both function and design into harmonious existence as our buildings and monuments take on the shapes of your plans. You therefore have the capacity to revitalize our infrastructure and make them more economical and effective in conveying their utility to our countrymen. You also have the unique opportunity to add artistic and visual significance to our urban spaces and inspire the Filipino people through functional aesthetics, reinforcing positive values in society. May this event motivate you to support the transformations necessary for the Philippines to become a highly progressive and equitable nation.

It is your task to ensure that the expansion and development of our cities will bring about cultural and historic significance to our locales, as well as practical benefits to all our countrymen. We count you among our partners in upholding inclusiveness throughout the archipelago; may your work reflect this ideal, and may you achieve new paradigms of success for your profession.

I wish you a productive and meaningful convention.

JEJOMAR C. BINAY
Republic of the Philippines
Vice President

Warmest greetings to United Architects of the Philippines (UAP), and congratulations as you hold your 41st Annual National Convention and Business Meeting!

Filipino professionals are known around the world for their unparalleled dedication and expertise. This is the primary reason why we are one of the most sought-after skilled workers abroad.

I am glad that you have dedicated your event to the advancement of their welfare, as reflected by your event's theme: **"Empowering Architects Towards ASEAN Integration"**.

Your organization has relentlessly worked to protect the well being of our professionals, especially our Filipino architects who are known for their excellence and passion for their craft.

Mabuhay kayo!

FRANKLIN M. DRILON
 Republic of the Philippines
 Senate President

I would like to express my warmest greetings to the United Architects of the Philippines as you hold your 41st Annual National Convention on April 16-18, 2015 with the theme, **“Empowering Architects Towards ASEAN Integration.”**

We are all aware that preparations for the integration of ASEAN economies are underway. Indeed, there will be much to celebrate with the impending ASEAN Economic Integration by the end of 2015 because of the economic opportunities and challenges that will be created for the region.

The ASEAN community is committed to foster mutual understanding and deepen economic and business ties within the region. As the ASEAN integration is slowly becoming a reality, I hope that your organization has trained our architects well as we expect stiffer competition on skills, talents and technical know-how. I have faith in our architects and I know that your organization will continue to invest in the education of our professionals to raise the level of their skills and abilities to compete globally.

May you have a successful and meaningful convention.

Mabuhay po kayong lahat!

Feliciano Belmonte, Jr.

FELICIANO BELMONTE, JR.
Republic of the Philippines
Speaker, House of Representatives

I offer my sincerest and most heartfelt congratulations to the UNITED ARCHITECTS OF THE PHILIPPINES (UAP) on its successful hosting of its 41st Annual National Convention and Business Meeting.

We at the House of Representatives offer our support for the improvement of architecture. As we get ready for the ASEAN integration, where we shall view ourselves not just as one country, but as part of a larger region of similar states in the Asia-Pacific region, we brace ourselves for the upcoming boom in infrastructure and construction, where professionals such as yourselves shall be greatly in demand.

With this annual convention, which marks more than four decades of service to our country the exchange of ideas, the forging of new contacts, and the solidarity that ensues between all Filipino architects around the country, we hope that our architectural talents can go far beyond our islands. we hope Filipino architecture sets the standard for other ASEAN nations to follow.

Once again congratulations on 41 years of architectural excellence which the UAP has so selflessly promoted and developed. *Mabuhay!*

ATTY. PAQUITO "JOJO" N. OCHOA JR.
Republic of the Philippines
Executive Secretary

Warm Greetings to the United Architects of the Philippines (UAP) as you celebrate your 41st Annual National Convention, entitled **"Empowering Architects Towards ASEAN Integration"**.

The ASEAN Integration, with ASEAN Trade in Goods Agreement (ATIGA) and ASEAN Framework Agreement on Services (AFAS) being its core, had caused numerous opinions and inquisitive mindset for many Filipinos. The most dominant question asked was, "IF WE ARE READY". Readiness however can easily be answered by the process in which our government has prepared for the challenges ahead. Both advantages and disadvantages are taken into account, to further improve our strengths and plans have been set to overcome weaknesses. The opportunities envisioned include the attraction of more Federal Direct Investments (FDI's), increased relationship and partnership with the Economic community, awareness of best practices in the different industries and enhancement of different skills through our Academe.

Greater competition however must not be ignored, regardless of the vastness of opportunities. This is why, we recognize the need for conventions such as this to further increase the competencies of the professionals and eventually create a more competitive advantage. The Architect is one of the most highly valued Profession in the country today. It is but necessary that multiple measures and initiatives are taken to further enhance the knowledge of every individual to stay at par and keep every program by the UAP Organization aligned with the requirements of the ASEAN Economic Community (AEC).

Creating a venue to discuss the effects of the opening of economic and trade borders, is a key step in solidifying what Philippine Architecture is all about.

Congratulations and all the best on your event!

Susan A. Yap

SUSAN A. YAP
 Republic of the Philippines
 Representative, 2nd District, Tarlac

Congratulations to the United Architects of the Philippines (UAP) on the celebration of the 41st Annual National Convention and Business Meeting!

The theme “**Empowering Architects Towards ASEAN Integration**” is both timely and significant. As we enter into a coordinated trading bloc with few restrictions and many opportunities, preparation is the key ingredient. After all, it is the prepared mind that is capable of taking advantage of opportunity.

The UAP as the Integrated and Accredited Professional Organization of Architects has consistently been an excellent leader and advocate for the rights of Filipino architects. Through their efforts, we have made significant strides in promoting the profession, and ensuring the Filipino public is provided with the highest quality of service.

As we move forward towards the bright prospects of integration, I encourage you take part in the many activities of this convention; and similarly to be active members of the UAP. Together, we can endure that Filipino architecture will continue to be a dynamic and competitive.

ROSALINDA DIMAPILIS-BALDOZ
Department of Labor and Employment
Secretary

It is with great pleasure that I congratulate the officers and members of the United Architects of the Philippines (UAP), a five-time awardee of the PRC's Most Outstanding Accredited Professional Organization of the Year, on the occasion of your 41st Annual National Convention and Business Meeting on 16-18 April 2015, with the theme, **"Empowering Architects Towards ASEAN Integration."**

I appreciate and commend UAP's efforts in organizing events like this which continue to hone and advance the potentials and skills of Filipino architects to effectively compete with their class in their profession and as a prelude to the upcoming ASEAN integration this 2015.

Moreover, with the conclusion of the ASEAN Mutual Recognition Arrangement on Architectural Services, the UAP will be first to benefit from this Agreement which will facilitate the mobility of Filipino architects in the ASEAN and encourage the exchange of information to promote adoption of best practices on standards of architectural education, professional qualifications, and practices, and to provide architects updated information on new products in the industry of design and construction. It is heartening to note that the qualifications of our Filipino architects are now recognized by ASEAN member states. The way to greater growth and better career opportunities of our competent and excellent Filipino architects are now accessible and attainable.

Again, I congratulate UAP and our Filipino architects for the success of this event. Continue to soar high and achieve endlessly wherever you are.

Thank you and *Mabuhay!*

It is my pleasure to extend cordial greetings to the United Architects of the Philippines on the formal opening of your 41st National Convention.

The professional Regulation Commission welcomes this forum as a fulfillment of the UAP's mission of spearheading continuing professional education in the architectural profession. This indeed is a demonstration of leadership, a point which is sufficiently reinforced by the chosen convention theme of, **"Empowering Architects Towards ASEAN Integration"**

The UAP's adoption of this theme is congruent to the government's embarkation on an acceleration of infrastructure as an important component of the Philippine Development Plan. The cooperation and coordination between the public and the private sectors in forging programs and creating employment relative to infrastructure and public facilities which is evidenced by the ever-growing business process outsourcing (BPO) industry and an upsurge in the field of real estate thus pointing to the rise of opportunities for architecture.

At the same time, the profession is a pro-active witness and an active player to the transition from traditional to green architecture, giving rise to sustainable construction designs that maximize energy utilization and minimize environmental degradation. The United Architects of the Philippines has earned its prominence and eminence in spearheading actions and activities in promoting green architecture and keeping Philippine architecture in step with global developments (if not ahead) in the preservation of our environment.

To the United Architects of the Philippines my best wishes for a successful convention!

ANGELINA T. CHUA CHIACO, fuap, piep, apc ar., asean ar.
Professional Regulation Commission
Commissioner

The theme for this year's 41st Annual National Convention amplifies the move towards empowering the Filipino architect towards truly being globally competitive.

The integration opens a new gateway for professional excellence and challenges for the Filipino Architect, without doubt the opportunities for those who have diligently taken to heart their duties and responsibilities as architects will find little difficulty in adapting to this new climate of professional practice. But those who have only come to this realization, take heart: it is not too late. The United Architects of the Philippines, as the Integrated and Accredited Professional Organization of Architects, continues to assist and provide direction if not to shepherd its members towards achieving the level of competencies necessary so as not to be left behind. However, as with all organizations, its success can only be truly achieved if its members rally behind its mission and vision.

May each and every Filipino Architect truly be united as the ASEAN integration brings us new challenges.

Mabuhay and congratulations.

**YOLANDA Y. REYES, fuap, piep, hfaia,
apec ar, asean ar., likha awardee
Professional Regulation Commission
Commissioner**

It is with great pleasure that I congratulate the officers and members of the United Architects of the Philippines (UAP) as they celebrate their 41st Annual Convention and Business Meeting.

As with the previous conventions that precedes it, this convention will again provide the ideal venue to showcase the work ethic, excellence and dedication of the Filipino architects who have changed the landscape of our country and have helped build our thriving industries and economy.

The theme of **‘Empowering Architects Toward ASEAN Integration’** aligns with the Filipino professionals’ march towards globalization with the forthcoming integration of the Philippines into the ASEAN Economic Community in 2015. Architecture is one of the first professions to be covered by a Mutual Recognition Agreement between the Philippines and ASEAN. This MRA opens avenues for the recognition of Filipino architects in the region. You will enjoy the opportunity to benefit from the cross-border mobility of services among the ASEAN member states.

The Commission welcomes the choice of this theme as indicative of the UAP’s acceptance of this challenge to their competitiveness in this “local to global” setting. With the prestige our architects have earned by virtue of their work, craftsmanship, and successful careers, the UAP as the Integrated and Accredited Professional Organization for Architecture Profession, can serve as models and Partners of the Professional Regulation Commission in our initiatives to assert the global competitiveness of Filipino architects.

As a proud member of the profession, I wish the United Architects of the Philippines continued success in its leadership and all its worthwhile endeavors on behalf of Filipino Architects.

Mabuhay member of the profession, I wish the United Architects of the Philippines continued success in its leadership and all its worthwhile endeavors on behalf of Filipino Architects.

Mabuhay ang Arkitektong Pilipino

ROLANDO L. CORDERO, fuap, asean ar.
PRC, Board of Architecture
Chairman

I and the other Member of the Professional Regulatory Board of Architecture, Ar. Fidel Jose R. Siapno, offer our sincerest felicitations and congratulate you on the 41st UAP National Convention on April 16-18 2015 at SMX Convention Center, Mall of Asia Complex, Pasay City, with a theme **“Empowering Architects Towards ASEAN Integration”** that will direct us to our objective to raise the bar of competitiveness and professional excellence among our members.

We are gearing toward the progressive liberalization of trade in services and eventual abstraction of all barriers on regulatory restrictions in architectural service trade in the ASEAN Integration. It is therefore a strong challenge for us to engage into specialization and nurture our line of expertise, and learn by heart international standards to enable us to compete with our international counterpart.

In tackling your business endeavor at this convention, PRBoA urge all Registered Architect delegates to extend full and unqualified support to our vital goal for the full enforcement and implementation of R.A. 9266 (Architecture Act of 2004) let nothing or no one weaken our resolve to strengthen and fortify our profession, one of the oldest profession in the world.

Again, the PRBoA wishes for the success of all your undertakings at the Convention.

Mabuhay ang mga Arkitektong Pilipino!!

FIDEL JOSE R. SIAPNO, fuap, asean ar.
PRC, Board of Architecture
Member

As the United Architects of the Philippines, the only Integrated and Accredited Professional Organization of Architects celebrate its 41st National Convention with its theme: **“Empowering Architects Towards ASEAN Integration”**, allow me to extend my heart-felt greetings and wish everyone all the best for a successful and productive gathering.

As we brace ourselves for the integration of our counter-parts from the different ASEAN countries, we must always remember that we are at par with our neighbors. Thus, we should welcome our fellow Architects and be equally bold to venture into other shores. Let us all work together and look forward to a reach-beyond-borders for a better global practice.

My sincere congratulations to all those involved in organizing this victorious convention. I encourage your active participation in all the activities that has been carefully prepared by this year’s various committees.

S. Tandand
SATHIRUT NUI TANDANAND
 ARCASIA President 2015-2016

On Behalf of the Architects Regional Council Asia (ARCASIA), I wish to congratulate United Architects of the Philippines (UAP) on your annual UAP National Convention 2015 with a theme **"Empowering Architects Towards ASEAN Integration"**.

UAP has been a leading architectural associations by providing support, nurturing, and education Filipino architects to have a strong foundation and elevate the quality of professional services. With this year's theme "Empowering Architects Toward ASEAN Integration", UAP have taken the initiative to lead architects not only in Philippines but also in the SE Asia Region.

I commend this initiative by UAP to be in the forefront of ASEAN Integration and as President of ARCASIA, I wish to pledge our support to provide any assistance UAP may require to achieving your goals as a leader in the new emerging ASEAN Economy.

I wish UAP great success in the upcoming National Convention 2015 and all your future endeavors. Once again, congratulations UAP for your leadership in our profession.

ESA MOHAMED
UIA President

INTERNATIONAL UNION OF ARCHITECTS

Congratulations on your celebration and the 41st Annual National Convention and Business Meeting with the theme, **“Empowering Architects Towards ASEAN Integration”**. This year also marks the beginning of the ASEAN Economic Community where Malaysia acts as the inaugural secretariat. It promises a more active and liberal trade relationships among member states of ASEAN.

Hence the initiatives of the UAP to hold a convention with this theme is commendable and fitting. It is my hope that Architects within this region, given the platform of ASEAN Architects, will be able to network actively and cooperate with their respective counterparts across borders. Through the UIA the ASEAN Architects can further establish connections with Architects from the rest of the globe. This is mobility endeavour one of the many programs that the UIA is also promoting. The UAP strong commitment and participation in the UIA will further enhance the success of these programs.

I wish you all the very best and successful meeting.

MA. BENITA O. REGALA, fuap, asean ar.
National President

Warm greetings to all of the Officers and Members of the UAP!

In this day of age, where borders brought about by Globalization are rapidly becoming unseen, liberalization becoming the norm; the demands and expectations in every aspect is being felt the strongest. The objectives of the integration of the 10 Southeast Asian Nations: economic growth, improvement of cultural relations, creation of more opportunities has been the heart of every conversation and it is only fitting that our theme for the 41st Annual National Convention, **“Empowering Architects Towards ASEAN Integration”** be aligned with these objectives.

A good leader encourages competition; a better leader encourages healthy competition. The difference between that two is that the latter’s main goal is to inspire the other for the benefit of the common good. The motive should always be for the greater good of the majority, for the continuous improvement of not only oneself but towards the development of one another. The activities set forth by the Organizing Committee encourage healthy competition by equipping the architects with the right tools to prepare for the integration and the inevitable challenges that lay ahead. There’s the “UAP Convention Exhibit, Arkilympics, General Assembly and Business meetings, Investiture of New Fellows, CPE Seminars, Architectural Tours and Fellowship Night”. The ultimate intention is to create awareness of the different aspects required by the integration, the technologies to be used, the building of a stronger and affordable infrastructure, disaster resilient housing, whilst keeping sustainability in mind in every creative design, in every idea realized by every Architect.

The Organization has experienced its share of adversities throughout the years, yet in every year we have managed to stay strong as one team. This strength comes from every member’s unconditional service and continuing importance given to staying united regardless of the position in the organization. In UAP, all roles are valued, as each person is a representative of what the organization is all about. Let our vision be our guide in overcoming individual differences.

I would like to thank the Organizing Committee, the UAP Secretariat, my Fellow Officers and Members for their contributions, ensuring the success of this national conference. I take pride in leading such individuals and feel honored and humbled by the service you all have given.

Congratulations!

REY S. GABITAN, uap
National Executive Vice-President

It is with great honor and privilege that I extend my warmest gratitude to the delegates, exhibitors, speakers and guests of the PRC's five (5) times Most Outstanding Professional Organization in the Philippines – the United Architects of the Philippines, as we undertake the 37th National Convention of Architects and Convention Exhibits at the SMX Convention Center from April 16-18, 2015.

This year marks a new era in the ASEAN region, the start of the ASEAN economic integration which is a prelude to the GATS 2020 implementation of cross-border practice. Indeed, the theme of this years' convention **“UAP Beyond Borders: Empowering Architects Towards ASEAN Integration”** is very timely as we continue and enhance the programs and strategies aimed at equipping Filipino architects with the appropriate tools in view of a larger community of practicing professionals. Filipino professionals, including architects, would now have to develop their competencies to meet higher levels of expertise in various fields of specialized practice as a result of more diversified and complex services. This can be achieved through formal education by taking masters and doctorate degrees or through professional practice and continuing education in focused areas of practice.

The United Architects of the Philippines, as the Integrated and Accredited Professional Organization of Architects (IAPOA), is committed to provide the needed support and training to develop Filipino architects to be competitive to the demands of the global market. The current administration has initiated a scholarship and thesis assistance program in order to attract more member architects to complete their higher levels of education. On the other hand, the creation of Specialty Councils in different fields of practice are being finalized to institutionalize the recognition of specialists or experts in various fields and formulate their respective non-formal mode of education or trainings that would be made available to those aspiring to be accredited as specialists.

Let me extend my congratulations to the UAP 2015 National Convention Organizing Committee for choosing a very timely and relevant theme, and setting a line-up of seminars and activities that will bring forth the ideals of Filipino architects in the global scenario. It will indeed be a very successful event once again for this organization.

Mabuhay ang UAP bilang IAPOA!

Mabuhay ang Pang-Global na Arkitektong Filipino!

CORAZON V. FABIA-TANDOC, fuap, asean ar.
National Vice President for Area A

This year, 2015, is the 40th year of existence of our beloved organization, The UNITED ARCHITECTS OF THE PHILIPPINES ! We praise and thank the Lord God Almighty, the Supreme Architect of the Universe for the blessings and guidance He has given UAP through thick and thin.

It is with my great pride and pleasure to have serve this prestigious organization from its inception and birth way back in the early seventies as Regional Coordinator for Central and Northern Luzon reaching out to our colleagues to join and be united in this organization up to the present as Area Vice President for Area A, representing the same area of responsibility.

At this juncture, I would like to extend my heartfelt thanks to our Vice Presidents of Area B, C and D , to all the District Directors, Chapter Presidents and members and most especially our Joint Area Assembly Organizing Committee for the invaluable support and overwhelming attendance as well as for the successful Joint Area Assembly in Cebu held last February, and to those who joined the Photography Contest on the "Lighthouse" as well.

Furthermore, as part of our Area A program of activities, I would like to propose and to institutionalize a formal Turn-over of Duties and Responsibilities, Leadership Training and Team Building of the Outgoing and Incoming Vice President, District Directors and Chapter Presidents every second week of May.

Today, I am most pleased to greet you a warm welcome to our 41st Annual and National Convention with the theme **"Empowering Architects Towards ASEAN Integration"**.

This is a big challenge and together, as professionals, let us always unite and join hands in accepting these challenges, small or big ones, for our profession, our professional organization, our fellow men, our country and God, our Creator. To God be the glory !

MABUHAY ANG UNITED ARCHITECTS OF THE PHILIPPINES!

It is with great pride and honor that I extend my warmest regards to the UAP Community as we hold the 41st National Convention with the theme: **“Empowering Architects Towards ASEAN Integration”**.

This year’s convention will highlight the architect’s role as a nation builder, economic and cultural strategists, addressing various forms of disparities among and within our members in the organization and other professionals in the ASEAN region as well.

Allow me to share this famous quote, “An organization no matter how well designed, is only as good as the people who lived and work in it”.

In behalf of my home chapter Manila Corinthian, and all the chapters under Area B, I extend my congratulations to the Organizing Committee for making this event a success and continue empowering our members, the profession and our beloved organization.

*Naway manatili ang pagmamahal at pagkakaisa natin para sa ating mahal na propesyon.
At sa organisasyong ating kinabibilangan!*

Mabuhay ang UAP! Mabuhay ang Arkitektong Pilipino!

MANUEL B. TINGZON JR., fuap
National Vice President for Area C

Greetings and Salutations!

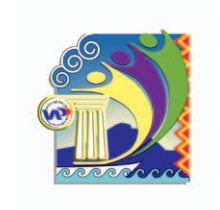

It is with utmost pleasure to know that we have reached a pinnacle of achievement in the architecture profession as we celebrate the 41st UAP National Convention with the theme **“Empowering Architects Towards ASEAN Integration.”**

In the light of paving the road for changes on the goals of our professional practice, let us bear in mind what defines and distinguishes our Filipino Architecture and who we are as Filipino Architects who embody in each architectural design the essence and soul of our Filipino legacy and heritage.

Linking communities in the Asian Region thru this process of integration will facilitate an exchange in culture and design as well as provide diverse opportunities for Filipino architects to excel in the global world. Ultimately, the success of our goal will be on how we rise to meet the challenges brought about by these changes and continue to espouse the highest standards in our professional practice.

In behalf of the Area C and the Architects from the Visayas, my sincerest congratulations to the United Architects of the Philippines, the National Officers, the Organizing Committee and the members of the Professional Organization for always ensuring the success of our annual convention.

Let us empower, equip and enjoin, *MABUHAY ANG ARKITEKTONG PILIPINO!*

It is with deepest honor and privilege that I congratulate the organizing committee of the

41st National Convention with the theme: **“Empowering Architects Towards ASEAN Integration”**.

While the ASEAN Integration is expected to level the playing field among industries in the region, it is also expected that Philippine firms such as the architecture and construction industry should brace for an intense competition with their ASEAN counterparts. An intense competition will therefore raise the bar for innovation, quality and productivity, which will enable businesses and professionals to compete head on with other players. It will further boost investment, creation of jobs and income in the region.

In behalf of my home chapter Zamboanga, Chapters from Area D, together with all the Mindanao Architects, “vaya con dios!”

Naway magpatuloy pa ang walang humpay na suporta at pagtitiwala natin sa ating minamahal na Organisasyon!

Mabuhay ang UAP!

Mabuhay ang Arkitektong Pilipino!

ALFRED GEOFFREY C. CARANDANG, uap
Secretary General

I would like to extend my warmest greetings to the participants and guests of the 41st National Convention.

The National Convention for this year is theme **“Empowering Architects Towards ASEAN Integration”**. The seminars and activities for this convention are geared towards strengthening our preparations towards the coming integration. I believe that it is a great venue for us architects to equip ourselves with more knowledge that will prove to be pivotal in our practice.

I am thrilled to witness how we Filipino architects will showcase our prowess in designing and building structures that will define the skyline and the landscape of the ASEAN Region. For me, this is the greatest advantage of the ASEAN Integration 2015. Some limiting factors are eliminated and we will be able to practice our profession not only in the Philippines but also in other ASEAN countries.

We will be facing both challenges and opportunities that the ASEAN Integration 2015 will bring us. The competition will be steeper but it is also a great opportunity for us Filipino architects to demonstrate our skills in our field. The integration will give us the chance to show the world what we have to offer but it will also open our country to others. Because of this, we must constantly seek to improve and empower ourselves not only as architects but also as advocates in enjoining all Filipino architects in being at the forefront of our Profession. It is only when we stand together can we become truly empowered.

Kudos to the Organizing Committee of the 41st National Convention!

Mabuhay ang UAP!

Mabuhay ang Arkitektong Pilipino!

We love our UAP Family!

“Empowering Architects Towards ASEAN Integration” – this has always been the goal of the organization since the integration is approaching. Now is the year where this integration is to take effect, and the organization is constantly working hand-in-hand with different sectors including the professionals, government agencies, and other technical professions as well, to empower us Architects.

On behalf of the United Architects of the Philippines – The Integrated and Accredited Professional Organization of Architects, I would like to welcome all the Participants to the UAP 41st National Convention in SMX Convention Center, SM Mall of Asia Complex, Pasay City. I also extend my gratitude to the organizing committee for their utmost dedication and perseverance.

The goal of this convention is to have us, Architects, empowered as we face one of the big challenges our profession is facing – competing with foreign Architects through cross-border practice. It is important that we meet up to interact, network and exchange ideas and concepts. It is only by sharing ideas that we can strengthen our profession. The UAP, with its constant move in protecting our Vocation, is truly dedicated in empowering the members, equipping all of you with a stronger knowledge and morale, and enjoining everyone in the achievements of the organization.

May this convention bring forth clear visions, and nourish our aspirations and longings, for the true benefit of the Filipino Architects!

Mabuhay ang UAP!

MOHAMMADSARFRAZ A. UTTOH, uap
National Auditor

Assalamu alaykum warahmatullahi wabarakatuhu

It's about time that **"Empowering Architects Towards ASEAN Integration"** become not just a theme but a realization. It took one strong-willed man with a tenacious foresight to lead this Country and manage the spearheading of the Association of South East Asian Nations (ASEAN) making this integration naturally imminent.

Ironically, the Filipino has been known as a follower that seems to be always short of being a leader; instead he would rather be the unsung hero of a very difficult project. One of the many aspects to fully commit to such integration is to belong to a strong and united organization that gives importance to an Architect's professional behaviour and contribution to the growth of its members.

The United Architects of the Philippines (UAP), the Integrated and Accredited Professional Organization of Architects (IAPOA) shall remain to be for the Architects and will continue to inspire its members to become leaders. Let us give everyone the confidence that we are equipped to fair play in the industry towards a common goal of global development.

No matter how much we were bombarded with the challenges and questions of our integrity as an Organization, the law is at our side. These are just normal tests for a strong UAP, nevertheless, we should not be weary being in the service. We should remain certain that no matter how they look for reasons to disengage us, or question the extent of our role in the field of infrastructure and national development, they are welcome to find that there are no skeleton in our closets. I have the audacity to state that this UAP is seriously transparent, brave and ready for ASEAN integration!

Congratulations to all architects and I immensely thank everyone for the undaunted support. Let us celebrate our achievements this 41st National Convention and pray for strength for our Nation, our fellow Architects, our National Leaders, and our Families for our future.

And lastly, my sincerest congratulations to the Organizing Committee. *Mabuhay ang Arkitektong Pilipino !*

RAMON S. MENDOZA, fuap
College of Fellows, Chancellor

It is my distinct pleasure to extend my most cordial felicitations to the general membership, participants, organizers, exhibitors and sponsors of the 41st UAP National Convention and CONEX 2015 to be held on April 16-18, 2015 with the theme: **“Empowering Architects Towards ASEAN Integration”**.

Our mutual commitment to the organization and with our individual capabilities as exceptional leaders are the reason why we always meet in this Annual Convention and I believe, will always be the greatest attributes that would bring our community to continuing excellence and at the same time provide the entire organization the boost of encouragement to move on despite the many challenges we face.

On this convention, we look forward, with genuine enthusiasm, to be equipped with proper knowledge on ASEAN integration and to make full use of ASEAN as architects. We hope that the our sector will use the mechanisms and programs in place to further propel our country and our people to be among the best in ASEAN; and we hope that our community will participate actively in regional cooperative programs to develop a qualified, competent and well-prepared architects that would benefit from, as well as, cope with the challenges of ASEAN regional integration.

In closing, I hope and pray that the national leadership of this great organization is fully committed to achieving excellence in every aspect of our mission and in all aspect of the profession, in fulfilling the plans and programs we have made to the UAP community and to the Architecture Profession.

Mabuhay ang mga Arkitektong Pilipino!

SONNY ROSAL, fuap, asean/ar., intl. assoc. aia, green ap
Immediate Past National President

Mabuhay!

Welcome delegates to perhaps the best national convention ever! The UAP's 41st National Convention simply because this convention caps the year long celebration of the 40th foundation of the *NO. 1 and 5 time **PRC-APO of the year awardee, the United Architects of the Philippines.

Let me share a short odyssey I read on being against all odds and surviving;

Sir Ernest Shackleton's Antarctic expedition of 1914 would ultimately fail, but the hardy crew he mustered would still win honor and recognition for its ability to survive against the odds.

After their ship Endurance was crushed in pack ice, the crew abandoned the plan to cross Antarctica on foot and the aim became merely to survive. Over two years, Shackleton led the crew across ice floes, then in lifeboats to a camp on Elephant Island where for six months the main group would subsist on seal meat and blubber.

Shackleton took five men around the island to the north and then across 800 miles of treacherous ocean to South Georgia Island. He then hiked with two others for 36 hours across the island's uncharted interior to a whaling station with another three months to go before he could safely reach the crew left on Elephant Island.

He later wrote, "We had suffered, starved and triumphed, grovelled down yet grasped at glory... We had reached the naked soul of man."

Congratulations to all the **HARDWORKING** members of the organizing committee headed by no less than Arch. Cathy B. Carunungan for a **JOB WELL DONE!**

You have **TRIUMPHED!** Grasp Glory with your bare soiled hands.

Thank you very much for your **SERVICE**. Bless all of you.

Congratulations to the members of the National Board of Directors and the Executive Directors of the seven Commissions. May your experience give you wisdom to share to those who dream to serve wholeheartedly our beloved UAP.

Thank you very much for your **SERVICE**. Bless all of you.

And last but not the least, thank you to the ever reliable and obedient UAP Secretariat.

Long life to all of you. UAP still needs you. Thank you.

BE WELL. BE ONE UAP!

EDRIC MARCO C. FLORENTINO, fuap, apec ar., asean ar.
President, PFPA

On behalf of the Philippine Federation of Professional Associations (PFPA), the umbrella organization of forty-three (43) Accredited Professional Organizations (APOs) recognized by the Professional Regulation Commission (PRC), allow me to convey my most cordial felicitations to the general membership, participants, organizers, exhibitors and sponsors of the 41st UAP National Convention and Conex 2015 to be held on April 16-18, 2015 with the theme: **“Empowering Architects Towards ASEAN Integration”**.

The ASEAN Economic Community (AEC) plans steps toward full economic integration among its 10-member countries with 600 million residents and 285 million workers this year, including free mobility of professionals and highly skilled workers. To realize the full potential of the AEC to deliver more and better jobs, decisive action is necessary, including better management of structural change. Deeper regional integration offers immense economic prospects, but translating these gains into shared prosperity and equitable development requires robust labor market institutions.

For us professionals, there are new realities, new opportunities, and new challenges in line with this integration. And we must have the resolve, the flexibility and the creativity to formulate new policies to take advantage of these new opportunities and meet these new challenges with regards to the ASEAN Integration.

Through participative and interactive seminars integrated in this event, we will have an opportunity to engage in meaningful mutual exchange. And as we evaluate our strength and competitiveness, we hope to come up with appropriate programs that address the various needs of the architecture profession in the Philippines to arrive at a sense of the “collective” in synchronizing regional and national priorities and policies.

As we face various changes, both within the Philippines and across the globe, I hope that we will take the opportunity offered by this UAP Annual Convention to learn from each other and freely debate the question of the direction for which we should aim at. Furthermore, I hope that this will culminate in meaningful outcomes and that the existence of the United Architects of the Philippines will come to be of even greater value as a result.

I would like to close by expressing my very best wishes for the success of the UAP Conventions and Exhibits with the help of our very active Organizing Committee, the continued development of the UAP-IAPOA, and the fruitful participation of all stakeholders in the built industry.

Let us all muster together to make this UAP Annual Convention and CONEX 2015 a grand success.

Mabuhay ang mga Arkitektong Pilipino!

ROGER T. ONG, uap
Executive Director, Commission on Convention, Assemblies and Exhibition

It is with great honor and privilege that I extend my sincerest gratitude to the delegates and allies of the United Architects of the Philippines as we celebrate the 41st National Convention of Architects at the SMX Convention Center from April 16-18, 2015.

ASEAN integration is a buzzword and topic for many discussions in nearly every professional conferences and gatherings. The advent of ASEAN Economic Community this year is not going to result in immediate changes in the ASEAN labor market. As economic integration progresses overtime, the region may observe structural changes that enhance employment prospects. But those changes will take time. However, policy makers will need to start preparing for such changes now.

Therefore, the United Architects of the Philippines endeavors to be at the forefront for Empowering Architects Towards ASEAN Integration. Let this Convention provides enhancement programs to meet the demands of the ASEAN Integration. May this convention, therefore, impart the desired skills and competency as we look forward to more shining moments for Filipino architects as we are about to enter into ASEAN Integration. With the concerted efforts of the organizing committee, we can confidently meet the future with dedicated, competent, ethical and socially responsible professional architects that imbibe the qualities of leadership, authority, accountability, stewardship and transparency

Welcome to the 41st UAP National Convention. *Mabuhay tayong lahat!*

CATHERINE BALCE-CARUNUNGAN, fuap, asean ar.
Director, 41st National Convention

The journey of being at the helm of our 41st UAP National Convention with the theme “**Empowering Architects Towards ASEAN Integration**” has given me great pleasure and a sense of accomplishment contributing to the UAP. What is overwhelmingly heartfelt was the collaboration and professionalism of the kind-hearted member-architects of the Organizing Committee, consistently inspiring each to bring out the best in every member.

The desire to elevate the level of this convention was the real motivation and the shared feeling among the members. With this came the long hours of planning, designing and discussing our dreams for this convention to come to a reality. This may probably be the best way, should there be something higher, to describe the common objective of all.

I will always remember this feeling with fondness and cherish all the memories I have and the new friends I have made. I feel so fortunate to have been of service to the UAP in this way and I am grateful to its present leadership, Ar. Ma. Benita Regala, for providing me this opportunity. I wish that everyone is able to have a good experience from the 41st National Convention and likewise be able to bring home good memories.

For this year, the UAP will be delivering the 41st National Convention to a higher level to be able to be at par with its ASEAN partners. This year 2015, the Philippines will join the other 9 ASEAN member-nations in the process of integration, as part of the ASEAN Mutual Recognition Arrangement.

Allow me to quote what the brilliant American writer James Baldwin said: “Between 1917 and 1941, the ocean, inconceivably, had shrunk to the size of a swimming pool. As we open our doors so shall doors be opened for you.”

We are now going to be part of the movement towards globalization. The world will be slightly smaller with this Integration and the practice of our profession will transcend our geographical borders.

As we open our doors to a broader horizon which we term as “ASEAN”, it is probably normal to have a sense of apprehension in relation to our professional practice.

Actually, many foreign Architects who have specialized in various fields in architecture have practiced in the Philippines for quite some time now, likewise, for Filipino architects who have worked in foreign countries. Some of these fields, which we, practicing architects in the Philippines may also engage in, include facade design, building traffic specialist, sound and acoustic specialist, Certified LEED specialist, Quantity Surveyor, Project management, Materials Specialist, and many others.

With the ASEAN integration, 10 ASEAN countries including the Philippines, will open its doors to architects from all over the region. It is best that we, as architects, be globally competitive by equipping ourselves with the knowledge and skills required by our profession.

This may be a sort of “Baptism of Fire” for many of us, but as the old folks say: “You will be better for it.”

Warm regards to all.

RICHARD M. GARCIA, fuap
Director, Convention Exhibit 2015

My warmest greetings to all the Delegates, Sponsors and Guests of the UAP 41st Annual National Convention with the theme **“Empowering Architects Towards ASEAN Integration.”** Indeed, our country is very fortunate to have Architects that are considered to be one of the most talented and competitive in the world.

On this occasion, I would like to take this opportunity to invite all delegates, friends and the general public to visit CONEX2015, “The Philippines premiere Building and Construction Expo”. CONEX will be a venue for architects to enhance product awareness, also it will be a place for launching of new products and Information on Building material technology.

I am happy to note that this year, CONEX2015 has formed and joined Alliance Partnership Programme with 4 countries that organize construction exhibits. We will aspire to be known as one of the “BIG 5” in the Construction and Building Exhibitions in Asia. Among the countries that participated with the partnership are:

MALAYSIA's ARCHIDEX
SINGAPORE's ARCHXPO
THAILAND's ARCHITECT EXPO
TAIWAN 's TAIPEI BUILDING SHOW
PHILIPPINES- CONEX

The Alliance Partnership Programme's goal is to promote architectural design excellence as well cultivate business relationship for the wellbeing of each others exhibitions. Also thru this collaboration we can share ideas on how to improve our respective building and construction show further.

In behalf of Team CONEX2015, I would like to congratulate the Organizing committee of the 41st National Convention headed by my friend Ar. Cathy Carunungan for the great effort and commitment that they have extended to put up 41st UAP Convention to the next level and ensure that this National Convention will be a success.

Lastly, We are EXcited to see you in CONEX2015, As Partners we will EXplore Opportunities, Together we will deliver the CONEXperience. Mabuhay ang mga Arkitekto!!!

ESA MOHAMED

UIA President

Malaysian architect and town-planner Esa Mohamed has been elected UIA President during the UIA General Assembly, which took place in Durban, South Africa from 7 to 9 August 2014. Esa Mohamed will undertake the presidency of the International Union of Architects for the triennial period 2014-2017. He succeeds French architect Albert Dubler.

He is the founder and director of Akitek Jururancang (Malaysia) Sdn Bhd (AJM), an architectural and planning firm in Kuala Lumpur. He is the author of prestigious architectural projects in Malaysia, such as the Subang Jaya township, the masterplans for the city of Kuala Lumpur and for the administrative capital of Putrajaya. He has also launched large-scale works in China, Pakistan, India, Australia and Saudi Arabia. Esa Mohamed received numerous awards among them The Aga Khan Award for Architecture in 2001 for the Datai Resort, Langkawi.

Between 2008 and 2011, Esa Mohamed has been a UIA Council member, and then Vice-President of the Union from 2011 to 2014. He is a member of the UIA Commission for Professional Practice. He was president of the Malaysian Institute of Architects (PAM) between 1993-1995 and of the Architects Regional Council Asia (ARCASIA) from 1995 to 1996.

JONATHAN V. MANALAD, uap

Arch. Jonathan Manalad has an extensive professional practice both as an architect and academican that spans to twenty years, from 1994 to present. He holds a Master's Degree in Architecture, major in Community Architecture and minor in Housing from the University of the Philippines. He obtained his Bachelor's Degree in Architecture from the University of Santo Tomas in 1993 within which, he had been sent as an international exchange student to the University of Greenwich in Kent, England that exposed him to British-based architecture curriculum and brought him to key cities in Europe and explored its major built environment wonders. His early exposures to international design practices has been his tool to be an effective design practitioner and academican.

From 2000 up to present, he is actively involved as Assistant Professor at the University of Santo Tomas College of Architecture where he is currently serving as the Architectural Design Coordinator. His position calls for him to conceptualize programs within the department and oversee its implementation to provide effective delivery of the Design courses all in its five levels (1st year to 5th year), which is considered to be the backbone of the Program.

As an architect and environmental planner, he heads an independent architectural firm J.V. Manalad Design, Planning and Construction. His project involvement ranges from commercial, institutional, academic and residential undertakings. Currently, he is heavily involved with major academic institutions in their redevelopment and modernization efforts as its architect and design consultant.

ANA S. MANGALINO-LING, fuap, apec ar, asean ar.

Ar. Ana S. Mangalino Ling's love for Architecture can best be exemplified by her belief that architecture nurtures and the ability to create excellent architectural masterpiece equates to fulfillment of life, to offer inspiration and to leave behind legacies for the future generation.

Thus, during her term as National President of the United Architects of the Philippines, nurturing emerging architects thru continuing professional education and establishing linkages with government agencies became her top priorities, benchmarking UAP as the center for professional development for architecture and allied professions for students, graduates of architecture, architects and allied professional, sustaining the profession, the professional, the professional product and the professional organization.

As a founding partner in Jose Siao Ling and Associates, she inculcates moral values and interpersonal skills, which for her is as equally necessary as architectural proficiency and strong design sense, in the esteemed development of an Architect.

She is a graduate of Post Baccalaureate course in Real Estate Management from De La Salle College of St. Benilde in 2006 and Property Management from De La Salle Graduate School of Business in 2007. She is a certified in Heritage Building Conservation, Construction Health and Safety, Hospital Planning, Green Building Design Professional, Green Building Assessor and Fire and Life Safety. She is a Licensed Landscape Architect and Licensed Environmental Planner.

She served as Honorary Treasurer of Architects Regional Council Asia (ARCASIA) in 2007-2009, as Alternate Council Member for Region 4 in Union Internationale des Architectes (UIA) 2012-2014, an International Associate of the American Institute of Architects (AIA) and currently the Treasurer for the East Asia Regional Council for Planning and Housing (EAROPH) Philippines.

Ar. Ana S. Mangalino Ling is an APEC Architect and an ASEAN Architect.

CHRIS TUI

Chris Tui is a professional basketball player who currently plays for the Rain of Shine Elasto Painters in the Philippine Basketball Association. Aside from being a professional basketball player, he is also a TV host, commercial model, politician and entrepreneur.

He is the host of the TV show "IBILIB: Wonders of Horus" televised in one of the major TV channels.

Chris earned his Bachelor of Science in Management Engineering degree and Minor in Chinese Studies from Ateneo de Manila University in Quezon City. He was formerly the Sangguniang Kabataan Chairman of Barangay Urdaneta in Makati City.

He was also named "Favorite Athlete" in the first-ever Nickelodeon Philippines Kid's Choice Awards in 2008.

Among the other awards garnered by Chris are the Loyola School Awards for Leadership and Service in 2008, Lingkod TV Awards in 2010, Ten Outstanding Young Men (TOYM) Award in 2013 and the MITv Gawad Kamalayan "Natatanging Informative Program Host" in 2015.

SERENE PANG

Serene is a long-time member of the International Color Marketing Group (CMG), and is actively involved in the annual International Color Marketing conferences.

Trained at the School of Architecture in the National University of Singapore, Serene has worked in various countries within the architectural, building & color industry, specifically within Asia Pacific. Her knowledge within the field of color merchandising trends often renders her sharing sessions highly informational and interesting.

Being well informed of the current & future color directions, Serene is actively involved in the fields of color marketing and consultancy. She conducts color seminars at various private forums for her clientele in the home decor industry. Often tinged with a touch of humor, her sessions on the use of color in selling, color & design and color & branding are highly popular and well-received by her audience.

Serene currently holds the position of Sales & Marketing Director for an international color manufacturing corporation, The Duha Group. She is currently based out of her Singapore office.

JOHANNES DE JONG, m.sc. eng.

Due to his wide technical expertise, Johannes de Jong, MSc., Eng. functions as the senior technical expert and is presently the Head of Technology for KONE Major Projects globally.

His expertise is used to minimize both the clients' project risk and KONE's project risk to a minimum. Johannes is a member of the Advisory Group of the Council on Tall Buildings and Urban Habitat (CTBUH) and of several technical workgroups of the European Elevators Code Committee.

He is also recognized as a senior elevator technology expert in the world, and has received several awards and mentions for his work. He has been involved in many of the world's tallest and largest buildings.

LEOVIGILDO N. FERRER JR.

Leo is a registered Mechanical Engineer with fifteen (15) years experience in the field of industrial plant construction, building construction and facilities management, electro-mechanical design, Water/Waste Water Treatment Equipment, business development and client relationship management. Leo worked as a volunteer to the Philippine Green Building Council. Formerly, the Inception Committee Chairman of the BERDE Green Building Rating system, Leo put together the framework of the rating system which was used for public comment and eventually released for piloting. On his personal capacity and advocacy, Leo also has conducted various talks geared in energy and water conservation.

IMMANUEL ALBERT AMANTE

Sales Manager, SCG

Graduated from De La Salle University Manila, He pioneered the introduction and distribution of several SCG building Materials into the Philippine Market such as SCG Smartboard Fiber Cement, SCG Elephant White Cement, Siam Fiber Glass, and other SCG Products. He handled the sales of the company for several regions and channels specialized in wholesales, retail, and projects. Currently, Immanuel heads SCG's Roofing division which seeks to provide the market with quality roofing materials which includes SCG concrete tiles(Formerly CPAC Monier), Clay tiles, Ceramic Tiles, Stone coated, and among other.

MARY ELINORE O. DAZO

Specifications Manager, Bostik

Ms. Mary Elinore O. Dazo graduated from the University of Sto. Tomas in 1989 with a Bachelor of Science Degree in Architecture. She worked for Ar. Froilan L. Hong doing Project Management for numerous projects. She also worked for Ar. Meloy Casas and Ar. Bong Recio as Specifications Writer.

For the past two (2) years, she has worked as Specifications Manager for Bostik Philippines Inc and conducts product and technical presentations particularly to architects and is involved in product strategic management.

RAYMOND A. ASTILLAS, SR.
Trade & Industry Specialists
Bureau of International Trade Relations DTI

EDUCATIONAL BACKGROUND

- Design Excellence Awardee for her project: Caleruega Chapel and Dominican Retreat House in Nasugbu, Batangas
- Member of the Professional Regulatory Board of Architecture
- And Union Internationale des Architectes, Council Member for Region 4, representing Asia, Australia and New Zealand

BOON CHE WEE

Ar. Boon Che Wee is a Professional Architect and a Director of GRA Architects based in Kuala Lumpur, Malaysia.

He was President of Malaysian Institute of Architects from 2009 to 2011, and during his tenure has led Malaysia to inaugurate the Malaysia Pavilion at the Venice Biennale to promote Malaysia's architectural design talents on the global stage and founded the annual Kuala Lumpur Architecture Festival to establish Malaysia's capital city as an international design hub.

Ar. Boon was also a founding member of a team of building and construction industry professionals who volunteered to develop Malaysia's Green Building Index in 2009, and led the team from 2010 to 2013 as Chair of the Green Building Index Accreditation Panel, to steer the novice rating to be Malaysia's international benchmark for green building.

As an advocate of design and green as the key differentiators in the region's competitiveness, Che Wee is often invited to speak on Malaysia's initiatives in driving the country's design economy, and in the nation's green transformation.

SARLY ADRE SARKUM

Ar. Sarly Adre Sarkum is an architecture futurist, sustainability proponent and design activist. Currently he helms the hybrid architectural design firm [SA]₂ or Sarly Adre Sarkum Architecture SdnBhd which combines cutting edge architectural design solutions with extensive research based explorative approach to solve challenging integrated design problems. He is currently the President of the Malaysia Green Building Confederation which is Malaysia's Green Building Council under the auspices of the World Green Building Council. He is also currently a elected council member of Pertubuhan Akitek Malaysia (The Malaysian Institute of Architects). He is currently active and involved in promoting sustainability and design. He is currently one of the 5 appointed Board of Directors.

JAMES GALIAS JAO, fuap, piid

An alumnus of the London School of Economics with a Master's degree in City Design & Social Science, Ar. James Jao is a pioneer of green architecture and sustainable living in the Philippines. His eco-initiatives have been integrated into his portfolio of works that include urban and master planning and residential, academic and leisure projects. He is also an interior designer and the President of the Philippine Institute of Interior Designers for 2015-2017. His architectural designs are widely publicized in Philippine design & lifestyle magazines, the latest of which is the iconic residential masterpieces the 'Kite House' & 'Stiletto house' both of which are located in Cebu. Ar. Jao had created life-size, three-dimensional models of the Eco House which were exhibited at the Manila Construction Show in SMX Convention Center in 2008 the LuzViMinda Eco House, in 2009 the Eco Jao Bahay Kubo - a carbon neutral house model, both of these became a headline in the Philippine Daily Inquirer newspaper & in 2010 the James Hardie Eco House. In 2014 a few months after the typhoon Yolanda hit the eastern Visayas islands in the Philippines, he launched the 'Star Rise Eco House' & 'Diamond Eco House' model of an affordable climate resilient housing that can withstand magnitude 8 earthquake & 320kph typhoon. He was the Philippines' representative to the Asian Productivity Organization conference in Singapore in March of 2013. He constantly updates his knowledge on green design and architecture by attending international seminars held in London- the EcoBuild Expo, in New York- the Greenbuild & the World Architecture Festival in Singapore, among others.

EDILBERTO F. FLORENTINO, fuap, apec ar., asean ar., piep, likha awardee

Ar. Edilberto F. Florentino, one of the principal architects of E. Florentino3+ Associates, is a product of the Mapua Institute of Technology, which recognized him as the Outstanding Mapuan in Architecture in 1992. Later, he attended post-graduate studies at the University of the Philippines, as an honorific scholar cross-enrolled in Civil Engineering on Structural Sciences.

He was Member of the Board of Architecture from 1993-1994 and was chosen the Outstanding Professional of the year 2002 in the field of Architecture by the Philippine Regulation Commission. Today he is an Accredited Arbitrator and Mediator of the Construction Industry Arbitration Commission.

Ar. Florentino is past Chancellor of the College of Fellows of UAP. As President of the League of the Philippines Architects, he was part of the Negotiating Panel that formed the UAP; he is a Past President of UAP-Quezon City Chapter and has been continuously involved in legislation for the profession, having worked towards the legislative approval of "Architecture Act of 2004".

Aside of being an architect of note, he is also a registered Environmental Planner, and holder of fourteen (14) approved patents on building technology.

Having received numerous awards and citations, in 2006 he was bestowed the UAP Likha Gold Medal, the highest award given to a UAP member, and in 2012 the Gawad Gintong Likha at the Cultural Center of the Philippines.

MARIE STEPHANIE N. GILLES, uap, piep

Architect MARIE STEPHANIE N. GILLES is a registered architect and licensed environmental planner. Soon after taking the Licensure Board Exam for Architects, she took a 3-year course in Italy at the Centro Internazionale di Studi under a scholarship from a German Foundation, where she was appointed professor while finishing her academic coursework, similar to her task as Teaching Associate at the UP College of Architecture while doing her masteral course.

In 2008 during the Diamond Jubilee celebration of St. Joseph's College QC, she was awarded as the Most Outstanding Alumna in the Field of Architectural Design by her alma mater, where she graduated as class valedictorian in both elementary and high school. In April of 2013 she obtained her Master's Degree in Architecture at the University of the Philippines -Diliman, where she is currently taking a graduate course at the School of Urban and Regional Planning, hoping to pursue a PhD specialization on Environmental Management. In June 2014, she successfully passed the licensure board exam for Environmental Planners, her PRC license being #911.

She is currently the Principal Architect of SNG Design Enterprise, a dynamic service-oriented design firm that has had projects all over the country and even abroad during its more than 2 decades of service. At the United Architects of the Philippines-Diliman, she holds the position of Continuing Professional Education Director and is the Head of the Capacity Building Group of the UAP Emergency Architects. Her corporate social outreach involvement has led her to devastated areas such as Tacloban & Roxas, assisting in organizing seminars to architects on disaster-resilient design and in Bohol, where she is helping to restore churches destroyed by the recent earthquake. As Chairman of the UP Planners Organization, she spearheaded the collaborative work of UP PLANO with Workshop Architecture, a European-based technical team that is helping to provide shelter to homeless street children in Tacloban. She has collaborated with several professionals in the field of planning, addressing the requirements of cities and municipalities such as Comprehensive Land Use Plans with focus on mainstreaming DRR/ CCA, Comprehensive Development Plans, Urban Master Plan, Tourism Master Development Framework, and the like. With reference to academic work, her passion for research has led her to participate actively and to organize seminars and conferences here and abroad, delivering papers related to architecture, urban planning, disaster management and climate change adaptation, and giving lectures organized by the Philippine Institute of Environmental Planners (PIEP). She is a member of Architecture for Humanity (Manila Chapter), Asian Institute for Urban Resilience and the Philippine Green Building Council. Her extensive work experience in the Philippines and other parts of Asia has given her the exposure of working with foreign professionals and providing the competitive edge, leveling the playing field of architecture and urban planning, gearing towards ASEAN integration and globalization.

TITO MOISES S. ENCINAS, uap

Had over twenty-nine (29) years of experience in almost all facets of architecture, project management, and corporate management across a wide range of projects including physical planning, architectural design of government & private offices, and commercial, residential, industrial, and transportation-related projects all over the Philippines. Had been the Project Director, Project Manager, Project Architect, and Architect-of-Record responsible for various major construction and facilities projects throughout the Philippines, Socialist Republic of Viet Nam, Republic of Maldives, and Republic of Seychelles.

Most outstanding contribution in the field of architecture, was my 17-years dedication in uplifting the quality of education and alleviating the conditions of the deprived, disadvantaged and depressed public elementary & secondary schools in the remote barangays of the archipelago through designing, quality control and construction supervision of effective school facilities that are properly site-adopted, built under quality construction procedures, with a certain level of typhoon-resistance and durable compared to the normal government school buildings which are designed to serve as places for refuge during natural calamities.

Unique management skills had motivated my colleagues in the UAP Legaspi Chapter to actively participate in its planned projects for the organization during my term as Chapter President in 1989. My administration paved the way for the Chapter to gain the "Most Outstanding Chapter" award the following year. I continued to radiate my trustworthiness when unanimously elected as District Director of then Regional District-9 covering the chapters of San Pablo, Lucena, Camarines and Legaspi in 1990. It was during my term that the first UAP Conference of Architects was successfully held in Legaspi City. Was also instrumental in establishing the United Architects of the Philippines - Sorsogon Kasanggayahan Chapter as a Charter Member.

Contributed to the academe as a part-time Professorial Lecturer in the Bicol University and Aquinas University of Legaspi through unselfish sharing of actual professional experiences with students in the various architectural subjects taught from 1986 to 1991.

DIANE LEGGE KEMP

faia, asla, apa, leed ap nd

Diane Legge Kemp is an architect, landscape architect and planner with over 45 years of experience on large scale civic, transportation and infrastructure projects. She is internationally recognized for her skills in programming, conceptual design, and implementation strategies. She facilitates sustainable design solutions which address aesthetic and practical concerns, blending architecture, landscape and civil engineering, on assignments both in the USA and Asia. She is an expert in natural resource management, waterfront and mobility-oriented development (MODe).

AME M. ENGELHART

Director, East Asia Office
Skidmore, Owings and Merrill LLP

Ame Engelhart is an accomplished architect and urban designer focused on the design of cities, districts, and large, complex architectural projects. Based in Hong Kong since 1993 she extensive experience in China and SE Asia. Working with SOM since 1999, she has been collaborating with multi-disciplinary design teams on large scale mixed use developments and urban districts. Ame creatively addresses challenges and opportunities emerging from established and developing cities in Asia. Trained in architecture and urban planning, Ame brings together the design skills and ambitions of both disciplines to develop holistic plans for urban centers and communities. She is dedicated to promoting the fundamental principles of livability and sustainability, and approaches each design project with respect to the unique social, economic, environmental and geographic conditions inherent in each city and site. She directs high-visibility, forward-facing projects that strategically define or redefine important places, positioning them for enduring growth. Currently she is leading SOM's business development efforts in South East Asia and her current work includes projects in Hong Kong, Singapore, Kuala Lumpur, Jakarta and Manila.

PRASETYO ADI, iaa

Prasetyoadi (Tiyok) is a trained architect and urban designer. He is the managing director of PDW (PT PandegaDesainWeharima/Planning and Development Workshop) urban design and architecture firm in. He has 20 years' experience practicing in Indonesia and Australia. Prasetyoadi is certified architect (Indonesia Architects Association) and planner (Planning Institute of Australia), he is also one of the founder of Green Building Council Indonesia. He is recently country leader of Council on Tall Building and Urban Habitat in Indonesia.

Abstract:

NEXT LEVEL - PUBLIC TRANSPORT & DENSITY

Jakarta, with more than 10 million populations, has grown rapidly since 1970s. However, it the metropolitan area, Jabodetabek (consists of 14 municipalities) has more than 28 million population sprawling into the area of 6,000km². The main problem of Jakarta metropolitan area is the lack of public infrastructure, one of them is public transport. Jakarta doesn't have adequate public transport and mass rapid transport. The Governor, inaugurated in October 2012, restarted two most important transport infrastructure projects, Jakarta MRT and Jakarta Monorail (private investment). These new infrastructures will provide development opportunity to Jakarta's future. These are the basic infrastructure that should have been built 30 years ago as the city now is in dire need of proper transportation infrastructure.

The paper will discuss the opportunities and challenges, as the result of the investment in infrastructure. The private investor is aiming to benefit from air rights development from the monorail station that will serve Jakarta's CBD, connecting the city from east to west. The new typology of real estate is also expected to enrich Jakarta's skyline. The progress of the infrastructure project will also be discussed as the Jakarta government is also investing on elevated bus rapid transit infrastructure.

DAVID CHAN & MUNINN CHAN

Design Collective Architects (DCA) together with their associate interior design practice Essential Design Integrated (EDI) are a young and vibrant architectural practice based in Malaysia, whose projects thrive on the close collaboration between architects, interior designers, landscapers and home owners.

DCA's design philosophy focuses on the issues and processes concerning customization, creating BESPOKE architecture.

As a practice, DCA is process based. The process begins with accumulating a synthesis of site, programme and people. The source of inspiration for a house normally comes from a special relationship between DCA, their clients and their clients' relationship with their personal circumstances.

This presentation will address issues concerning the complexity of home owner requirements today which extends beyond the simple need of just having shelter. It also explores the resurgence of the multi functional homes.

PETER MOULD, life fellow, aia, uia

Peter Mould was NSW Government Architect from 2006 to 2012. He has over 40 years experience in Australia and overseas in both the private sector and government.

Peter is currently a member of the City of Sydney Design Advisory Panel, the Victorian Design Review Panel, the South Australian Capital City Design Review Panel, the Sydney Olympic Park Design Review Panel, the Sydney Opera House Eminent Architects Panel, the Sydney Opera House Conservation Council, the Walsh Bay Arts Precinct Committee and is Chair of the Built Environment Advisory Committee, UNSW. He regularly sits on design juries for competitions and projects in Australia and New Zealand.

He has served on NSW Heritage Council and chaired its Approvals Committee, the Central Sydney Planning Committee, and was Deputy President of the NSW Architects Registration Board.

His projects have received numerous awards for architecture, urban design and adaptive reuse. His experience is in the design, documentation and construction of major public architectural and urban design projects. He writes and lectures on architecture with a particular interest in Islamic Architecture.

Peter is a Life Fellow of the Australian Institute of Architects, former Vice President of the NSW Chapter and was Visiting Professor at the Faculty of the Built Environment, University of NSW 2009-2012.

MOHAMMED KHAMIS MUNYANYA, fellow, aak, uia

Ar. Mohammed Khamis Munyanya holds a Bachelors Degree of Architecture from the University of Nairobi. He has a vast experience in working with several firms. These include the Adventis Inhouse Africa Ltd (AIA) and Symbion International as an architect before rising to be an Associate of the firm from 1999 to 2002. He has also worked as an architect at the Plence International and Conte Designs.

Ar. Munyanya was likewise an Assistant Lecturer at the Kenya Polytechnic between 1990 and 1991.

He has held several positions in the Architectural Association of Kenya, from the Hon. Secretary in 1999 to Chairman in 2005. He was also concurrent Secretary General and Treasurer of the East Africa Institute of Architects from 2004 to 2005 and President of the Institute from 2006 to 2007. Ar. Munyanya became treasurer of the Africa Union of Architects form 2005 to 2011 and from 2008 to present, is a Council Member of the International Union of Architects.

TAE YONG YOO, *kia, uia*

Ar. Tae Yong Yoo graduated in 1981 from Han-Yang University in Seoul, Korea with a degree in Bachelor of Engineering in Architecture.

He joined the SAC International, Ltd. in 1981 to 1982, Norris M. Gaddis & Associates, Oakland, US from 1984 to 1985 and the Bull, Volkmann & Stockwell, San Francisco, US from 1985 to 1986, all as Junior Architect.

While working, Ar. Tae continued to pursue his studies and secure his degree in Master of Architecture from the University of California, Berkeley in 1985.

From 1986 to 1989, he was the Project Designer for Field/Paoli Architects, San Francisco, US and then worked with the Chang-Jo Architects, Seoul, Korea for ten (10) years (1989-1999). From then on until the present, Ar. Tae is the principal in the TehJe Architects, Inc., Seoul, Korea.

Ar. Tae was awarded honors by the Duke of Edinburgh Fellowship, Cambridge University in UK in 2004. He also was Director of the Korea Institute of Architects from 2004 to 2005, and has been an Honorary Council Member of the same institute from 2009 to present.

ROY A. VILLAROSA, *uap*

An alumnus of University of Santo Tomas College of Architecture in 1983, Ar. Roy A. Villarosa has over 30 years of extensive technical experience in designing numerous residential, commercial and hotel projects. He was involved in the design of the EDSA Shangri-la Hotel, the first 5-star hotel to be built after the EDSA Revolution of 1986. He designed the exclusive Hamilo Pico de Loro Beach Club and Sports & Country Club in Nasugbu, Batangas, the first Premium Beachfront Community Development of SM Development Corporation. He was also involved in the design of the current tallest residential structure in the Philippines, The 72 storey Gramercy Residences in Century City, Makati. Ar. Villarosa believes in and supports sustainable environmental design and in May 2012, he became a Certified Berde Professional as accredited by the Philippine Green Building Council.

Ar. Villarosa has numerous Professional Trainings and Seminars on Fire Safety and Fire Protection Standards per NFPA Codes. He also had Technical Orientations on European Norms and Fire Safety Regulations conducted in the Netherlands, Belgium, Germany and England in 1996 including additional orientations in Malaysia and Singapore in 1997. Working in collaboration with other international architects for various local projects, Ar. Villarosa's inputs on Fire Safety Standards has been an invaluable asset and integral part of the design of their projects.

THE FIRST 40 FILIPINO ASEAN ARCHITECTS

1. AR. YOLANDA DAVID REYES, fuap, hfaia, apec ar., likha awardee

She is the former Dean of the University of Santo Tomas College of Architecture and Fine Arts. Ar. Reyes served as the National President of the United Architects of the Philippines for the Fiscal Year 2002–2003.

She was the former Chairman of the Architects Regional Council Asia and is an APEC Architect. She is the Chairman of ASEAN Architects Council, an Honorary Fellow of American Institute of Architects and a Member of the UAP College of Fellows.

In the past year she was the UAP Likha Awardee.

Ar. Reyes is a Chairman of the Technical Panel for Architecture, Interior

Design, Landscape, Fine Arts and Environmental Planning Education of the Commission on Higher Education.

She was bestowed the Design Excellence Awardee for her project: Caleruega Chapel and Dominican Retreat House in Nasugbu, Batangas.

Ar. Reyes is a member of the Professional Regulatory Board of Architecture and a Council Member for Region 4 of the Union Internationale des Architectes, representing Asia, Australia and New Zealand.

2. AR. ROLANDO L. CORDERO, fuap

He is a BS Architecture graduate of the Far Eastern University and he topped the 1972 Architects Licensure Examination.

Ar. Cordero is a former faculty member of the Institute of Architecture and Fine arts, FEU and was among those awarded the Outstanding Alumni in the 75th Founding Anniversary of the Far Eastern University in 2003. He was also awarded the Outstanding Alumni of Saint Joseph Academy - La Consolacion School in 2005.

Ar. Cordero is a former Caloocan City Development Planning Officer and the first City Architect, Chief Planner of Caloocan City Long Range Comprehensive Development Plan and Caloocan City Zoning and Land Use Plan.

He is at present a Member of the UAP College of Fellows and is a Chairman, Professional Regulatory Board of Architecture

4. AR. ROZANNO C. ROSAL, fuap, int'l. assoc. aia

Ar. Rosal received his degree of Bachelor of Science in Architecture from National University in 1985 and Executive Masters in Business Administration at the International Academy of Management and Economics.

He has been a versatile, staunch, knowledgeable, and respected voice on advocacy issues that are of critical import to architects and others in the design and construction industry at the national, and local levels.

3. AR. FIDEL JOSE R. SIAPNO, fuap

A graduate of the University of Sto. Tomas. He was instrumental in establishing the College of Architecture and Fine Arts at the Aquinas University of Legazpi City, serving as its first Dean from 1982 to 1985, and served two (2) more terms in 1989 to 1997.

His greatest achievement is having mentored more than 200 practising Architects in the Bicol Region, all over the country and abroad especially in Asia and the Middle East.

He is an active member of the United Architects of the Philippines.

Also served as a UAP Chapter President twice, in 1980 and 1987, and was on the National Board as District Director in 1984. In 2005, he was appointed as a member of the Nominations Committee and as Chairperson of the UAP COMELEC. He has been awarded and conferred as Fellow of UAP and as Member Emeritus of the organization

In more than two decades of service in UAP until the time when he became UAP National President for Fiscal Year 2012-2014, he made his mantra “the positioning of architects as the authoritative source on the built environment”.

Ar. Rosal never rested on his accomplishments, but rather has been spurred forward because of them, confronting new criteria and establishing new parameters within which innovative solutions to the architecture profession could be developed.

Ar. Rosal is currently in the United States of America, where he also attended a meeting with the American Institute of Architects; one of the matters discussed is the situation of the Typhoon Yolanda Victims in the Southern Philippines.

5. AR. EDRIC MARCO G. FLORENTINO, fuap, apec ar.

He is one of the principal architects and Senior Managing Partner of E. Florentino + Associates (EF+3a) together with his Architect-Father & Architect-Daughter. He & his father, Edilberto F. Florentino developed an innovative building system called "Modular Ferro-Concrete System", holding 13 patents & copyrights.

He is a registered APEC Architect since 2006 and he became Fellow of UAP in 2002.

He was National President of the United Architects of the Philippines (UAP-IAPOA) in 2005 to 2007 and was Charter President for 2 years of the Council of the Built & Natural Environment (CBNE).

He is the current President of Philippine Federation of Professional Association (PFFA). Ar. Florentino is a bonafide member of the Filipino Inventors Society (FIS) since 2008. He is actively involved in Architects Regional Council ASIA (ARCASIA) and, currently, the Vice President for Zone B for 2013-2014. Ar. Florentino is one of the members of the Executive Committee of East Asia Regional Organization for Planners and Humanities (EAROPH).

6. AR. MA. BENITA O. REGALA, fuap

She has been in public service for 32 years and begun her career as Architect/Planner 2 and has risen from the ranks due to her enormous accomplishments in the National Housing Authority

Ar. Regala is the former National Executive Vice President of the United Architects of the Philippines.

She is a Member of the Philippine Council for the Architecture Profession and was awarded the UAP Presidential Leadership Awardee in 2012.

Ar. Regala is a Member of the UAP College of Fellows and now currently seats as the 24th National President of the United Architects of the Philippines

7. AR. ANGELINE T. CHUA CHIACO, fuap, hfpia, apec ar., piep

Ar. Chua Chiaco is a Member of the College of Fellows of the United Architects of the Philippines, Honorary Fellow, Philippine Institute of Architects and a Member of the Philippine Institute of Environmental Planners. She is also an APEC Architect. Ar. Chua Chiaco is a former Member of the Professional Regulatory Board of Architecture (2006-2013), former PRC Representative to the ASEAN Architect Council for the ASEAN Mutual Recognition Arrangement (MRA) for Architectural Services (2007-2013) and is at present a Commissioner of the Professional Regulation Commission.

8. AR. CONSUELO C. BUENCAMINO, uap, aia, ncarb

Ar. Buencamino graduated BS Architecture from the University of Santo Tomas in 1980 and passed Licensure in 1981. In 1983, she moved to the United States and in 1992, earned her license to practice Architecture and established Peach Buencamino Architect Inc. In 2009, she returned to the Philippines and established C.C. Buencamino Architect mentoring young talented Architects and working in various pro-bono CSR projects. She is registered with the Florida Board of Architecture, a Certified General Contractor and Certified Residential General Contractor in Florida, a member of Florida Home Builders Association, National Home Builders Association, Southern Building Code Congress International, the National Council of Architectural Registration Boards (NCARB), American Institute of Architects (AIA) and the United Architects of the Philippines (UAP). She is the current Executive Director for the Commission on Professional Practice of the UAP.

9. AR. ROMULO L. REYES, fuap, int'l assoc. aia, apec ar.

He is a graduate of the University of Santo Tomas College of Architecture and attended and studied Design Executive Education Program on "Airport Development for the Next 50 Years" at Harvard University Graduate School in Boston.

Ar. Reyes is a Member of the College of Fellows of the United Architects of the Philippines (UAP).

He is also an International Associate Member of the American Institute of Architects (AIA) and is one of the first twelve APEC architects in the Philippines.

He is at present the Principal Architect and Owner, Reyes Design+Planning+Architecture Corp. with a satellite office in Muscat, Sultanate of Oman

10. AR. NORBERTO M. NUKE, fuap, hfpia, apc ar., likha awardee

Ar. Nuke is the Charter and Founding President of United Architects of the Philippines in 1975.

Ar. Nuke was a Member of the Board of Architecture from 1975-1978 and was the Acting Chairman Board of Architecture from 1978-1981. He became the Chancellor of UAP College of Fellows from 1979-1980. He has invaluable contribution in the creation of the Architect's National Code 1979 and he spearheaded the upgrading and updating of UAP Document 201 on Pre-Design Services.

He played a vital role in the design and planning of government transportation projects, intermodal transit complex (MRT-LRT Station Planning and Design) in Metro Manila, and is noted for his active participation in the regulation of the architectural curriculum and practice.

11. AR. FRANCISCO T. MAÑOSA, fuap, apc ar., fpiia, likha awardee

Ar. Francisco "Bobby" Manosa's voice rings clear as a clarion bell in defense of Filipino Architecture. In his professional life, his masterwork is the painstaking creation of a design that can be called Filipino. In his body of works, he demonstrated traditional forms and materials to suit modern building needs and changing lifestyle. For his lifetime of pioneering works, he received several accolades from several organizations - Most outstanding Professional of the year as architect in 1996 and as Interior Designer in 2013, the Gawad CCP Award in the field of Architecture, the highest award from the United Architects of the Philippines - the Likha Award, among many others. For his greatest contribution to the welfare of the future architects aside from his lecture series - he published two books - Designing Filipino the Architecture of Francisco Manosa; and Beyond the Bahay Kubo.

13. AR. EDILBERTO F. FLORENTINO, fuap, apc ar., likha awardee

Architect, Environmental planner, Arbitrator-Mediator and inventor of 13 approved patents, Ar. Florentino is a principal of E. Florentino 3+ Associates.

He was cited Outstanding Mapuan in 1992 and attended post-graduate course at University of the Philippines on structural sciences. Ar. Florentino was chosen as the Outstanding Professional in 1992 and member of the PRC Board of Architecture in 1993. In 2006 he was bestowed the Likha Gold Medal, the highest award given by UAP to a member.

14. AR. ROGELIO G. VILLAROSA, fpiia, uap

In July 1954, Ar. Villarosa passed the examination for architects as First Place Topnotcher. He is backed by several years of skills development and fifty years of professional practice. At 80 years of age, he is still engaged in a wide scope of projects ranging from simple structures to more complex projects such as hotels, hospitals, high-rise residential condominiums, commercial, institutional, and industrial structures, socio-cultural and community centers and resort complex.

12. AR. WILLIAM V. COSCOLLUELA, uap, fpiia

A top Philippine architect, William V. Coscolluela has been leading his firm WVCA in 5 decades of advocating for best practices in all his many projects, as well as in his other advocacy initiatives.

His outstanding quality of leadership goes beyond architecture as confirmed by many global, regional & local awards & recognition including the most prestigious President's Gold Medal for Architecture - a recognition given by Mapua Institute of Technology only to 2 awardees thus far. His Platinum LEED Zuellig Building in Makati City is now a multi-awarded landmark in the Central Business District.

15. AR. CARMELO T. CASAS, uap

Ar. Casas earned his degree in Architecture from the University of Santo Tomas in 1976, placing 7th in overall ranking in the 1978 Architects Licensure Examination on the same year. He joined Eric Cumine Associates in Hong Kong and thereafter joined Palmer & Turner (HK) in 1980 as Design Architect. He joined Architects Hawaii Far East (AHFE) in 1985. In October 1988, he joined Arch. Jose Pedro Recio in forming a partnership called Recio+Casas Architects which lasted for 20 years. In 1997, the firm was awarded the first "Firm of the Year" award by the Philippine Institute of Architects for its creating a dynamic impact on the Architectural scene of the country. In September 2008, the firm was officially demerged and Casas+Architects was officially born.

16. AR. JOSE PEDRO C. RECIO, fpia, uap

He is the principal of Architects Inc., a local practice that began in 2008. He graduated from the College of Architecture at the University of Sto. Tomas in 1975, and pursued his professional career in Hong Kong immediately after. Since 1988, he was a partner in Recio+Casas, and subsequently pursued his solo career in 2008.

His practice is currently involved in a variety of project types, ranging from hospitality to insitutional design work.

17. AR. CATHERINE BALCE-CARUNUNGAN, fuap

She is Principal Architect of Carunungan & Partners company, an architectural firm that has been in existence for more than 25 years in which she has her husband Architect Jose Ramon Carunungan as partner. The firm boasts of its architectural and engineering design capability with diversified projects ranging from single family dwellings units to master planned communities and single storey commercial/industrial structures to high rise buildings

18. AR. ABELARDO M. TOLENTINO, JR., fuap

He is the President and CEO of Aidea Philippines, Inc. A graduate of the University of Santo Tomas in 1987 with a Bachelor of Science Degree in Architecture, he spent nine years in Hong Kong working in prestigious architectural firms such as HOK Asia Pacific and John Lei Architects, Ltd.

His firm Aidea has consistently ranked among the top 100 Architectural practices in the world for the past 5 years - coming in 63rd in 2014. The firm has over 500 projects ranging from corporate offices to commercial centers, industrial complexes, residential buildings and leisure facilities. With 180 design professionals and support staff, Aidea's practice now spans over 5 continents, in 40 countries and 90 cities worldwide.

19. AR. JOSE RAMON P. CARUNUNGAN, fuap, piep

Cited for their innovative approach to Planning and Designing which empowers people to participate in the design process, Ar. Jose Ramon Carunungan, together with his partner and co-founder of Carunungan & Partners Ar. Catherine Carunungan combine their expertise, technical competence, logic and conviction in translating mere imagination into reality and blend it with a unique design approach considering both economy and aesthetics in the process.

He was awarded 2014 Outstanding Professional for Architecture, given by the Professional Regulation Commission.

21. AR. PROSPERIDAD C. LUIS, fuap, apec ar.

She obtained her Master in Architecture from the University of the Philippines and her Postgraduate Diploma in Health Facilities Planning from the Medical Architecture Research Unit of the University of North London. She is the Principal Architect of Luis and Associates and a former Dean and faculty member of the College of Architecture of the University of the Philippines. She is an Executive Member of the Union of International Architects-Public Health Group and the Global University Program on Healthcare Architecture. She has served as Secretary General of the APEC Architect Central Council, National President of the United Architects of the Philippines and Vice Chair for Zone B of the Architects Regional Council Asia.

20. AR. ANA S. MANGALINO-LING, fuap, apec ar., piep, pala

Her love for Architecture can best be exemplified by her belief that architecture nurtures and the ability to create excellent architectural products equate to fulfillment of life, to offer inspiration and to leave behind legacies for the future generation.

Thus, during her term as National President of the United Architects of the Philippines, nurturing emerging architects thru continuing professional education and establishing linkages with government agencies became her top priorities, benchmarking UAP as the center for professional development for architecture students, graduates and established architects alike, sustaining the profession, the professional, the professional product and the professional organization. As a founding partner in Jose Siao Ling and Associates, she inculcates moral values and in her personal skills, which for her is as necessary as architectural proficiency and strong design sense, in the development of an Architect.

She served as the Chancellor of the UAP College Of Fellows, 2013-2014

An Apec Architect, and an International Associate of the American Institute of Architects.

22. AR. CORAZON F. TANDOC, fuap

A multi-faceted professional Architect and Academician/Mentor for her extensive and diverse exposure in the field of Architecture, Planning, Project Management, and Education since 1966. She has worked collaboratively with local and foreign architects in the World Bank /IBRD-Funded Projects, government and private projects

Ar. Tandoc is a graduate of Mapua Institute of Technology, School of Architecture and Planning, obtained masteral units in Management Engineering at the University of Pangasinan and took training courses in Hospital Planning, Green Architecture and Fire Protection.

Ar. Tandoc is a charter member of the United Architects of the Philippines, one of the “Founding Father of UAP”, Fellow of the UAP College of Fellows, Past Chancellor and currently the Vice President for Area A.

23. AR. MIGUEL C. GUERRERO, fuap, apec ar., assoc. aia, green ap

He is the Managing Partner of Asian Architects, a firm established in 1985, that continues to deliver institutional and hospitality buildings, striving to harness appropriate technology to arrive at climate-sensitive, innovative and sustainable design solutions. A passionate advocate of sustainability, he is the Chairman of the Green Architecture Advocacy Philippines, a civic non-profit organization that promotes sustainability for all. He is a Fellow of the United Architects of the Philippines and one of the first twelve APEC Architects in the Philippines.

A frequent resource person and mentor, he generously shares knowledge and experience of professionalism and sustainability with others, with the hope of making the world a better place to live in

24. AR. JOSE SIAO LING, fuap, apec ar.

Ar. Siao Ling is considered as a modern icon of Philippine Contemporary Architecture and a leading advocate of post modernism evidenced by his numerous landmark architecture in the country.

He leads Jose Siao Ling and Associates with strict adherence to professional practice, never failing to remind his staff that earning money comes second to keeping the client’s trust.

A consistent recipient of the top ten architectural firms award for the last decade, Ar. Ling never compromises quality for profit. This idealism is his key to sustaining excellence in his craft meriting him the conferment by the Professional Regulation Commission as the Most Outstanding Professional in the field of architecture in 2004 and by the University of Santo Tomas as the Outstanding Tomasian of the year in 2007 in Architecture.

25. AR. TEOFILO I. VASQUEZ, fuap, apec ar.

Ar. Vasquez is an innovator, inventor, artist, manager, teacher, thinker and philosopher. These are what make up the modern architect.

Ar. Vasquez has shown his commitment to excellence in an architectural practice that spans over 30 yrs. His noteworthy designs and reputations speak well of what he has managed to build up over time.

At present, he is the President and Chief Executive Officer (CEO) of his own company, the TI Vasquez Architects and Planners, Inc. located at Makati and with branch office on the country’s Queen City of the South, Cebu City.

He was President, from 2005-2006 of the United Architects of the Philippines (UAP), National District Director, 2012-2013 of the UAP, Director for National Social Advocacy from 2012-2015 and Brotherhood of Christian Businessmen and Professionals, National Office.

The overriding principle of Architect Topy Vasquez is “Adding Value to Life through Architecture that is Responsive to Man and His Environment”.

26. AR. ROBERT MIRAFUENTE, fuap

He initially studied architecture at the Southern California Institute of Architecture, USA, then graduated with a bachelor of science in Architecture from the University of Santo Tomas, and finally had his master’s degree at the University of Sydney in Australia.

Since then, he has worked in Australia, Singapore, Hong Kong, China, Malaysia, and the Philippines.

He has contributed many years of service to several professional organizations, that include Charter President of the Architects Alumni Association Batch ‘83 of UST, Past President of the UAP Fort Bonifacio Chapter, Conference Director of the 31st UAP National Convention and the 1st Construction Exhibition and Conference Director of the Green Forum in the years 2004, 2007, and 2013.

Ar. Mirafuente is one of the pioneers in the practice of green architecture in the Philippines. He helped found advocacy organizations such as the Green Architecture Movement of the United Architects of the Philippines in 2002, and the Green Architecture Advocacy Philippines in 2009.

27. AR. MARIA NINA BAILON-ARCE, fuap

She is the Senior Partner at Arce-Bailon-Arce Architect

Ar. Arce won the National & International Competitions as a student, was a consistent scholar and Dean's Lister and Rector's Awardee. She graduated Magna Cum Laude from The University of Santo Tomas in 1981 and placed Top 5 at the PRC Board Exams in July 1983.

She worked with F.F.Cruz & Co., Inc. for 16 years.

With service in mind, she volunteers for the Girl Scouts of the Philippines Real Properties & Buildings Committee since 2000 and was elected member of the GSP National Board for Triennium 2012-2015,

She was appointed in various positions in the UAP "Balangkasán" and was President of the UAP Manila Atelier Chapter in 1997-1998.

28. AR. GUILLERMO H. HISANCHA, fuap, apec ar.

He is a Fellow of the UAP and was conferred as an "APEC Architect". He was awarded as "One of the Most Outstanding Men of Iloilo" in 2011 and University of San Agustin's "Most Outstanding Alumni Achievement Awardee" in the Field of Architecture this year. Ar. Hisancha specializes in Hospital Planning and Design and currently, he is doing the upgrading of 11 District Hospitals and the Iloilo Provincial Hospital in Iloilo. Interestingly, he has been an elected Government Official for five consecutive terms as Municipal Councilor twice and three-time Vice Mayor of the Municipality of Pavia, Iloilo.

29. AR. MARIANO S. ARCE, JR., fuap

Ar. Arce is a Member of the College of Fellows of the United Architects of the Philippines.

He received his bachelor's degree at the University of Sto. Tomas in 1981.

He taught in the College of Architecture from 1986 to 2000.

In 1987, he established his own architectural design firm Arce-Bailon-Arce Architects with his college classmate and lovely wife, Arch. Ma. Nina Bailon-Arce where he assumes the position of Managing Partner ever since.

He is also active in the Church Community where he and his wife belong and became the National Coordinating Couple of the Worldwide Marriage Encounter in 2003-2005.

He currently resides and works in Quezon City with their three children, two of whom are licensed architects who work with their firm.

30. AR. PAMELA NANTES AMADOR, fuap

From her humble beginnings, being raised by both government employees in a family of seven, she graduated Bachelor of Science in Architecture from the University of Santo Tomas, Manila in 1980. Her career started at the National Housing Authority and molded her into a service-oriented professional. Public service shifted to private practice with her husband Ar. Zoilo Joaquin "Jack" Amador. She also found herself active in the United Architects of the Philippines.

31. AR. MARIA ELENA B. CARLOS-CAYANAN, fuap

She was architectural designer to Luis Ma. Araneta, and Associates and Assistant to the principal architect at Cresenciano C. de Castro and Associates.

Further on, with her husband, she did interior architecture and fabricate furniture as an entrepreneur, at the same time teaching at the Philippine School of Interior Design, then at Far Eastern University Institute of Architecture and Fine Arts, then at the University of Santo Tomas College of Architecture until she retired in 2009.

She believes that education is a lifetime endeavour. Ar. Cayanán graduated BS Architecture at Mapua Institute of Technology in 1964, earned a Master in Architecture degree in 2003 and is now pursuing her Dissertation for a PhD, both at the University of Santo Tomas. She has published scholarly researches in journals and awaits publication of Philippine pioneer architects' biography book. She is presently the Dean of the College of Architecture at the University of Perpetual Help in Calamba, Laguna.

32. AR. MCHAEAL T. ANG, fuap, apec ar.

For him, excellence is a lifelong commitment. Whether it be in his professional practice or in educating future architects, he continues to strive to produce the best products. His craft is continuously polished by his earnest pursuit of continuing professional development culminating in his being bestowed the professional of the year award in the field of architecture by the Professional Regulation Commission in 2012.

His numerous achievements continue to inspire him to give back to society thru dedicated service to UAP, Red Cross, the Church, and other civic organizations. Truly an epitome of a true and committed professional

Ar. Ang is a member of the UAP College of Fellows and an APEC Architect.

33. AR. JOSE THOMAS BELDIA, fuap

He graduated from the University of Santo Tomas in 1973 and became a member of the United Architects of The Philippines in the same year. He was then elevated to the College of Fellows in 1999. During the early years of his career, he focused mainly on developing innovations in building systems, allowing his structures to be more cost-efficient without sacrificing quality and aesthetics. Later on, he shifted his attention to one of the most evident environmental concerns in our world today: global warming. Since then, he has dedicated

many years of his professional practice towards researching and developing new design solutions which are geared towards creating structures that are "truly green", and will help alleviate the effects of global warming in the world. Some of his design solutions have already been successfully implemented in his recently completed projects, while others are being tested out in ongoing projects

34. AR. MELENCIO DAVID F. MANALO, fuap

Ar. Manalo is one of the Pioneer Graduates of University of the Assumption College of Architecture in Pampanga, Class 1986

He has been in practice for 27 years and specializes in residential and hospitality projects

He is also the second recipient of UAP Angeles City Chapter, Architect Par Excellence Award (APEX) 2012, the highest award given to chapter members.

Ar. Manalo was two time district director 2009-2010, 2010-2011 and UAP National Vice President for Area A 2011-2012.

He believes that, great architecture design must take the effectual stride from drawing table to tangible.

35. AR. DOMINGO LL. TABLIZO, JR. fuap

Ar. Tablizo is dedicated public servant committed to deliver and share his expertise in architectural and interior planning, project management and evaluation, construction arbitration in both government service as NBI Architect and in private practice.

He is also noted for contributing immensely towards the upliftment of the profession, transcending beyond professional practice as exemplified by his active participation in the crafting of the IRR of the RA 9266 (Architecture Law of 2014) and the amendments of the Architects National Code balanced by his equally great contribution to the furtherance of the ideals and growth of the NBI as Technical working group member in crafting the proposed NBI Modernization Bill.

36. AR. BANJAMIN K. PANGANIBAN, JR., fuap

Ar. Benjamin Kimpo Panganiban Jr., is the Principal Architect of BK Panganiban Jr., Architects whose firm, based in southern Mindanao, focuses on Design and Build services. He has been in the architectural and construction practice since 1985 and is also the President and CEO of Bri- Ben Home Trends Inc. which specializes in importing

Finishing Construction Materials within and outside of the ASEAN region. He is a Fellow of the United Architects of the Philippines (UAP), past UAP National board Officer & specializes in Imported Material Specifications.

37. AR. JEMMA L. SAROL-SEMAÑA, fuap

Ar. Semaña promoted the profession thru her exemplary works on major residential and institutional projects of the city, establishing a trend towards appreciation of architectural fineness in building homes and structures. Her projects exude quality and excellence regardless of scale. A well-respected leader in the Architectural Professional Organization, Ar. Semaña has steered her colleagues in Cagayan de Oro City in making their Local Chapter among the best achievers of UAP. Her term as Vice President for Area D was marked with strong Mindanao participation in the National Organization.

38. AR. LORA B. RIVERA, fuap

She is currently the Department Manager III of Facilities and Office Services Department of the Home Development Mutual Fund.

She is a graduate of the University of Santo Tomas and currently is the president for the College of Architecture Alumni Association.

She had her post-graduate diploma on construction management and technology from the Institute for Housing and Urban Development Studies in The Netherlands.

She is a fellow of the United Architects of the Philippines and is the immediate past National Executive Vice President.

Her field of expertise is on the following Specialized Architectural Services: Project Management; Construction Management; Building Administration and Facilities Management for office buildings, and property appraisal of residential subdivision projects and condominium building projects.

39. AR. ERNESTO ANTONINO D. NASOL, fpia, apec ar.

The principal architect and owner of EAD Nasol Architects Interior Designers,

Ar. Nasol is an achiever in his own right based on awards and recognition he gained and garnered in the profession. He is also an APEC Registered Architect, Fellow-Philippine Institute of Architects, 2008 Adolfo Benavidez Awardee, former President of the Philippine Institute of Architects, Member of the Professional Regulatory Board of Interior Design, 1987.

He is the former 2nd Vice President of the Confederation of Filipino Consulting Organization (COFILCO), an accredited umbrella organization of Filipino consulting firms by the Government Procurement Policy Board (GPPB).

He is also a former Senior Partner Architect of Archhaus Asia Inc., former Faculty Member of the UST College of Architecture and the Philippine School of Interior Design and is currently a part-time University Professor at Don Bosco Technical School in Mandaluyong City.

40. AR. ANGEL L. LAZARO, JR. fuap, apec ar.

He is a true builder, both a Civil Engineer and an Architect. He has, for the last 62 years, designed and led the construction of several structures that have served the needs of the society. He has taught in the university, passing on to students both the knowledge of a scholar and the wisdom of a well-seasoned practitioner. He has helped found and for a long time, led the United Architects of the Philippines. In 1938, he organized a team of professionals to form the ALA, Angel Lazaro and Associates.

As a young man he exhibited the virtues of discipline, diligence and dedication to his aspirations. He graduated valedictorian of his class in 1934 and he has topped the licensure examinations for both Civil Engineering in 1938 and Architecture in 1962.

He has taken this same zeal for excellence to his work as could be evidenced by the numerous awards and recognitions given to him by his peers. And most important of all, he has laid the groundwork for his children to further build upon.
